IMPORTANT TIPS

- Do not splash liquid on the light to avoid internal short circuit.
- Do not scrape the side of the light with a blade.
- Do not let children play with the light when it is connected to power.
- Do not turn up the volume too high when you perform a Custom Setting to avoid scaring children.
- This is not a toy. Keep the cable away from children in case of strangulation.

PACKING LIST

PRODUCT OVERVIEW

GETTING STARTED

Power On/Off

Step 1: Plug the Power Adapter into the socket, then plug the Type-C Cable into the Type-C Charging Port on the back of the light.

Step 2: Press the Power On/Off button to power on the light. The Power Indicator will light up red and the default color of the light body is white.

Tip: To power off the Night Light, please press the Power On/Off button. The Power Indicator will be off.

OPERATION GUIDE

Operation on the Unit

Light On/Off

Double tap the Light Touch Control to turn on/off the light.

Colored Lights

Tap the Light Touch Control once at a time to switch the light mode among warm white, red, orange, yellow, green, cyan, blue, purple, pink and automatic color cycle in sequence.

Night Light Mode

Double tap the Light Touch Control to turn off the light, then touch and hold the Light Touch Control to activate Night Light Mode.

Note: Brightness adjustment is not applicable for automatic color cycle.

Note: The light is relatively dim, which is suitable for using at night.

Sound Control

Tap to start (pause) the selected sound.
Tap to turn down the volume step by step; touch and hold to turn down the volume steplessly.
Tap to turn up the volume step by step; touch and hold to turn up the volume steplessly.
Tap to start selecting the sound for soothing your kids. Tap once at a time to play the 3 soothing tracks in sequence.
Tap to scan selecting the sound for helping your kids sleep well. Tap once at a time to play the 3 lullabies and tracks in sequence.
Tap to start selecting the sound for helping your kids focus. Tap once at a time to play the 3 focusing tracks in sequence.

Countdown

You can set a time period for the selected sound after which the sound will automatically stop.

Step 1: Press **Countdown** to start setting the countdown time. The default countdown time is 30 minutes.

Step 2: Press the **Countdown** button once at a time to select the countdown time among 30mins, 20mins and 10mins.

Step 3: Press the **Countdown** button again to exit the countdown setting.

Tip: When the countdown ends, the sound stops and the light stays off if you have turned on the light.
The countdown setting will only be enabled when the sound is turned on.

Operation on Smart Life App

App Downloading and Registration

Step 1: Search for Smart Life from App Store™/Google Play™ or scan the QR code below to download and install it on your mobile device.

Note: Google Play™ is a trademark of Google Inc., and App Store™ is a trademark of Apple Inc.

Step 2: Create an account with a valid email address and log in.

WiFi Connection

Option 1: Auto Connection

IMPORTANT:
Turn on the bluetooth of your phone.
Power on your night light.

Automatically searching for the device, please wait.

A pop-up window shows the searched device.

Wait for connecting.

Create a name for your night light.

Option 2: Manual Connection

Select your WiFi and enter the correct password.

Long press the Power On/Off button until the light flashes quickly.

Switch to AP Mode.

If your WiFi network is weak, you can choose to connect the night light through AP network.

Long press the Power On/Off button until the light flashes slowly.

Connect to WiFi: 5G, HeimVision XXXX.

Wait for connecting.

Create a name for your night light.

Tip: During the network configuration, you may exit the configuration at any time by short pressing the Power On/Off button.

Home Page

After a successful WiFi connection, Nurture 600S will be displayed on the home page.

- Brightness Adjustment
- Sound Type
- Volume Adjustment
- Power On/Off
- Favorites
- Colors of the Light
- Soft Light On/Off
- Countdown On/Off
- Previous Track, Play/Pause, Next Track
- Bottom Menu Bar

Tip: Brightness Adjustment is not applicable for automatic color cycle.
Soft Light is not applicable for automatic color cycle. When it's switched on, the light will dim and brighten gradually.

Colored Lights

Tap the light body of N600S on the home page or Color on the bottom menu bar to set the light color.

Option 1: Choose the color you prefer from the palette to display.

Option 2: Tap Custom to select the color from the color gamut to display.

Tap Cancel to exit the current setting; tap Done to save the setting.

Tip: Turn off the light by tapping.

Sound Control

Tap the Sound Type icon on the home page or Sound on the bottom menu bar to select the sound.

Step 1: Tap Soothe, Sleep or Focus to choose the sound type.

Step 2: Tap the icon to select the sound you prefer.

Tap Cancel to exit the current setting; tap Done to save the setting.

Favorites

Tap **+** on the upper right corner of the home page to favorite the sound and light setting.

Notes:
Select Save this light and sound combination to directly save the current light and sound.
9 sets of sound and light can be favorited. If you'd like to replace the existing sound and light combination, please select Save or overwrite favorites.
The colored background represents the light color and the icon represents the sound.
Select one set of light and sound, then tap to change the setting.
Tap Cancel to exit the current setting; tap Done to save the setting.

Customize Your Settings

Tap Custom on the bottom menu bar of the home page to start customizing your settings.

Tap **+** to add a customized setting.

Name: Set a name for your customized setting.
Start Time: Set a time for starting the light/sound for this customized setting.
Mode: Choose from Sound&Light, Sound and Light mode.

Tip: Color, Soft and Brightness options will be disabled under Sound mode, Sound and Volume will be disabled under Light mode.

Soft Light

Switch on/off the soft light.

Brightness: Set the brightness of the light.

Sound: Select the sound played for this customized setting.

Volume: Select the volume of the sound.

Schedule: Set the duration of light/sound for this customized setting.

Repeat Frequency: Set a frequency to repeat the light/sound for this customized setting.

Toddler Lock: When it is switched on, there will be no response when pressing any button.

Tip: If the current Start Time and Schedule overlap with other custom settings, you will receive a pop-up message when you tap Save. Delete the overlapping custom settings, or reset the current Start Time and Schedule.

Check if the Toddler Lock function has been enabled in the Custom Setting. Check if you have powered on the light.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this

equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and/or, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISED/C Warning

This device complies with Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'exposition sans licence applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) L'appareil ne doit pas produire de brouillage, et
(2) L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'empêcher le fonctionnement.

The device is compliance with RF exposure guidelines, users can obtain Canadian information on RF exposure and compliance. This means that this product must be handled pursuant to European directive 2013/25/EU in order to be registered or authorized to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.

CAUTION
The symbol indicates DC voltage.

RECYCLING
The product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be registered or authorized to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.

EU Compliance Statement: Shenzhen Wuyao Technology & Innovation Co., Ltd. Herby declares that this device is in compliance with the essential requirements and other relevant provisions of the Directive 2014/53/EU. A copy of the EU Declaration of Conformity is available online at <http://www.heimvision.com/pages/eu-declaration-of-conformity>.
