TIPS AND RECOMMENDATIONS

1. Do not try to disassemble the product by yourself, please contact VANKYO for more help.
2. Do not use the product in high temperature, and near heat or fire.
3. Please use the charging cable provided to charge the product.
4. Long exposure to loud volume may cause hearing damage. It's advised you adjust the volume to a proper level for use.
5. For your safety, it's not recommended to wear the headset when driving as it may result in distractions.
6. Please pay attention to the surroundings when you use the product in case of potential risks.

TROUBLESHOOTING GUIDE

Q1. My teammate can't hear me.

* The connection option varies from different devices. Please make sure you have plugged in the **USB Transmitter** under wireless connection and the **3.5mm Audio Cable** under wired connection.
* Make sure the the microphone has been installed and turned on.
* Make sure the connected device is not muted.
* Please go to the sound settings of the connected device to check and verify the headset microphone has been enabled.
* Please contact us directly if this issue is unresolved.

Q2. The sound is intermittent or breaks up.

* This is likely to be due to the network connection of your device, and not the headset itself. If operating a wireless network, move your device closer to the router, or provide a wired connection between the router and your device. Determine if other users are overloading the wireless network that is precluding your device from being allocated sufficient bandwidth.

EN

Q3. There is no sound from one side of the headset when connecting with PC.

* Please insert the headset into your mobile phone to check whether it works well. If yes, please restart the PC and connect the headset with PC again.
* Please go to the sound settings of your PC to check L/R balance.
* Please contact us directly if this issue is unresolved.

Q4. The sound crackles or hisses.

* Excessive static electricity may cause abnormal noises in the headset, please try to remove it.
* Other sources of interference may be too close, such as TV, refrigerator, power tools etc., please be away from them when using the headset.

FCC Caution

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE：
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference toradio or television reception, which can be determined by turning the equipment off and on, the user

EN

is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

ISEDC Warning

This device complies with Industry Canada licence-exempt RSS standard(s).
Operation is subject to the following two conditions:
(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
The device is compliance with RF exposure guidelines, users can obtain Canadian information on RF exposure and compliance.

Le présent appareil est conforme Après examen de ce matériel aux conformité ou aux limites d'intensité de champ RF, les utilisateurs peuvent sur l'exposition aux radiofréquences et la conformité and compliance d'acquérir les informations correspondantes.
