Re: FCC ID: 2AQ4D-5066500

To Whom It May Concern:

The following application is submitted on behalf of our client, Frymaster LLC, for evaluation of their model WG7833-B0 for a C2PC certification under FCC Part 15.247 and 15E.

The C2PC is to reduce the output power of the module when integrated into host device Convothrm Elektrogerate GmbH model 5066500. The power reduction affects the DTS transmitters only.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
