MODULAR APPROVAL LETTER

FCC ID: 2AQ5R-RDWM15209 IC: 24301-RDWM15209

Modular Approval Requirement	Yes	No
(i) The radio elements of the modular transmitter must		V
have their own shielding. The physical crystal and		
tuning capacitors may be located external to the		
shielded radio elements.		
(ii) The modular transmitter must have buffered		V
modulation/data inputs (if such inputs are provided) to		
ensure that the module will comply with part		
15 requirements under conditions of excessive data		
rates or over-modulation.		
(iii) The modular transmitter must have its own power	V	
supply regulation.		
(iv) The modular transmitter must comply with the	V	
antenna and transmission system requirements of §§		
15.203, 15.204(b) and 15.204(c). The antenna must		
either be permanently attached or employ a "unique"		
antenna coupler (at all connections between the		
module and the antenna, including the cable). The		
"professional installation" provision of § 15.203 is not		
applicable to modules but can apply to limited modular		
approvals under paragraph (b) of this section.	\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	
(v) The modular transmitter must be tested in a stand-	V	
alone configuration	\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \	
(vi) The modular transmitter must be equipped with	V	
either a permanently affixed label or must be capable		
of electronically displaying its FCC identification		
number.	\ /	
(vii) The modular transmitter must comply with any	V	
specific rules or operating requirements that ordinarily		
apply to a complete transmitter and the manufacturer		
must provide adequate instructions along with the		
module to explain any such requirements. A copy of these instructions must be included in the application		
for equipment authorization.		
(viii) The modular transmitter must comply with any	V	
applicable RF exposure requirements in its final	, v	
configuration.		
conniguration.
