Troubleshooting

- The "S-208" device is in smartphone's Bluetooth device list, but failed to pair to.

Reason A: The speaker is not waiting to be paired (means that it has paired to another smartphone).
Solution: Long press the Play/Pause button for about 3 seconds to shut off current pairing, when the blue indicator light starts to flash slowly, choose "S-208" to pair to.

Reason B: The speaker's paired information has been cleared.
Solution: Use your smartphone to forget the device named "S-208". Then search for "S-208" and choose it to pair again.
- The smartphone could not search out "S-208".

Reason A: The speaker is not waiting to be paired (means that it has paired with another smartphone).
Solution: Long press the "Play/Pause" button for about 3 seconds to shut off current pairing, when the blue indicator light starts to flash slowly, choose "S-208" to pair.

Reason B: Paired devices information is lost or not remembered (caused by unpredictable operation).
Solution: Long press the Play/Pause button for about 6 seconds to clear all paired information, and then search for "S-208" and choose it to pair to.
- The charging time is too long.

Reason A: The adapter's output is too low, so the charging cable needs too much current while charging.
Solution: Please choose the adapter whose output is higher than DC 5V/1A and use the original charging cable.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Warranty Card

Please ask the dealer to fill the warranty card immediately after purchasing. We recommend to keep this card for future reference.
