Attestation Statement

FCC ID: 2AQ6KA1003

In the matter of Acconeer's and CTC Advanced submitted documentation for compliance of the electronic module assigned FCC ID 2AQ6KA1003, Acconeer hereby states that the product has been designed to fulfill the requirements under the FCC waiver order DA 21-814.

Acconeer provides a user manual to the module integrator, which states the following:

- The module integrator must include the below interference statement in the vehicle owner's manual: This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
- The host manufacturer should refer to guidance in KDB 996369. In addition, the host manufacturer must seek guidance and manufacturer approval from Acconeer to ensure that the module limiting conditions are fulfilled for the host product and that the installation instructions provided by Acconeer in the User manual has been followed. Acconeer will review test data, host design, and host documentation prior to giving manufacturer approval. Changes or modifications not expressly approved by the Acconeer could void the user's authority to operate the equipment. The host product manufacturer is responsible for compliance to any other FCC rules that apply to the host not covered by the modular transmitter grant of certification.

Acconeer acknowledges that the waiver conditions for the module are not transferable to any third party via §2.933 or any other means of technology transfer. The module will only be marketed and sold to host integrators who will adhere with waiver conditions set forth in DA 21-814 for factory installation in the interior of new passenger motor vehicles sold in the United States. Acconeer acknowledges that the waiver is explicitly conditioned on any changes to FCC rules that may be adopted in a future rulemaking proceeding in accordance with the terms of DA21-814.

Sincerely,
