## 1 What's Included

## 2 Parts of the doorbell

## 3 Initial Setup

## Safety Precautions

1. Keep the device in range of your router. Make sure the device is placed close to the Wi-Fi router. If there has to be thick or insulated objects between the device and the Wi-Fi router, which may lead to weak Wi-Fi signal, please make sure the Wi-Fi signal is in good level before you start using the device. Please contact the seller for assistance if there is any problem with the product and do not try to disassemble or repair the product without authority.
2. It is a delicatized device with low power consumption design. Everytime the device is awakened will work for few seconds. After that, the device will enter standby mode to save power. You can set the work time in the app settings.
3. It is normal that the product body temperature goes up when the product is working.
4. Please do not short-circuit the product.

## Charging

1. Connect the doorbell to an external power source via the supplied power cord. While in charging, you could see the charging status from the APP.
2. If the user prefers to use a power adapter (the power adapter is not included), the specification for the power adaptor is 5V/1.5A.

## Note:

- a) The doorbell will keep running, even power is switched off during charging.
- b) Battery power status could be viewed on the App.

## Installation

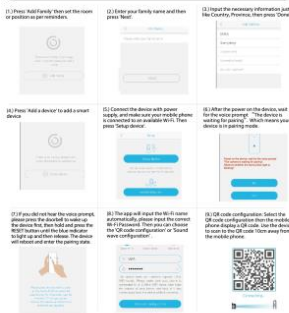

- Before installation, please ensure that the installation place is covered by Wi-Fi.
1. Drill 3 holes on the wall.
  2. Fix the rubber expansion plugs into the holes.
  3. Fix the hang wall board to the wall with the 2 long screws.
  4. Place the doorbell device on the hang wall board, then fix the hang wall board on the doorbell by the 2pcs of the short screws.

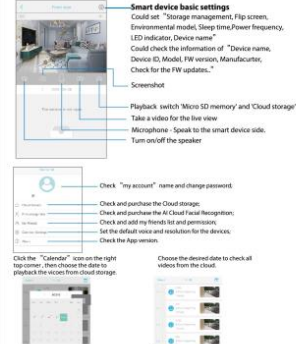

## App Installation and Registration:

## 4 Connecting your doorbell with the App

## 5 Using the UBox App

## Keep manual and all relevant information for future reference.

This device complies with the part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio/TV technician for help.

**FCC Radiation Exposure Statement**  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
