RE: Application VivaQuant, Inc.

FCC ID: 2AQ8D3

Part 2.933(b) change in equipment identification

To whom it may concern:

VivaQuant, Inc. requests a change in identification of a currently certified device under Part 2.933(b).

The original equipment identification is FCC ID: VPYLB1DX.

The original Grantee: Murata was granted approval on 2016-04-27 (we would like to include the C2PC from 6/24/16 on the original grant).

The original test data filed by Murata continues to be representative of the newly identified device. There are no changes to the hardware or software. This change in identification is requested for the newly identified device, FCC ID: 2AQ8D3, which is physically and electrically identical as defined by Part 2.907, to the originally approved module.

Photographs as required under Part 2.933(5) and FCC ID label are submitted with this request.

Please let us know if you might require anything further to assist with your review of this Change in Identification of Equipment.

Sincerely,

DocuSigned by:
