How to SETUP your scout UNO

On first use:

⌐ Press and HOLD the button till both Battery and App LEDs blink, then release the button.

To see status
Briefly press the button and let go. The LEDs will blink to indicate status as shown in the table below.

Batt LED	Solid Green	Battery OK
	Blinking Red	Battery needs charging.
Airplane LED	Solid Red	Airplane mode
Apps LED	Solid Green	Device State OK
	Blinking Red	Device State Bad

How to CHARGE your Scout UNO

⌐ Press the button for 1 second, then let go (LEDs may or may not show status).

⌐ Plug your Scout UNO into a standard USB-C charger. The Battery Icon will slowly "breathe" orange while it is charging and will change to solid green when fully charged.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Increase the separation between the equipment and receiver.
— Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must be at least 20 cm from the user and must not be co-located or operating in conjunction with any other antenna or transmitter.

The information in this guide may change without notice. The manufacturer assumes no responsibility for any errors that may appear in this guide.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. IMPORTANT: Changes or modifications not expressly approved by Culvert IOT Corp could void the user's authority to operate the equipment.
