Installing Your Device

Plug the device into the socket.

Notice:

a. Make sure the distance between the device and the router is less than 100ft.

03

b. Keep as few obstructions (e.g. wall, windows) as possible between the device and the router.

Downloading the Govee Home App

What You Need:

- A Wi-Fi router supporting the 2.4GHz (not 5GHz) and 802.11 b/g/n bands.

04

- A smart phone or tablet running iOS 9.3 (or above) or Android 4.3 (or above).

Download the Govee Home app from the App Store (iOS devices) or Google Play (Android devices).

05

Connecting to a Wi-Fi Network

- 1 Connect your mobile phone to 2.4GHz home network; (**Notice:** Android device users should turn on Location and iOS users should tap Setting - Govee Home - Location - Always in your phone.)

- 2 Open the Govee Home, tap "+" icon in the top right corner and select "H5081";

- 3 Press On-Off button and hold for 3s until LED indicator flashes blue, indicating it enters pairing mode;

06

- 4 Follow on-screen instructions in the app to complete the connection. (**Notice:** Make sure the Wi-Fi connected is your home network and the password entered is correct.)

- 5 Wi-Fi connection completed when LED indicator keeps solid blue or turns off. (**Notice:** You can find the new-added Smart Wi-Fi Socket in the device list once connection completes. If you can't, please swipe down the device list page to refresh.)

- 6 Wi-Fi connection failed if the LED indicator turns to be red or purple. Check the above steps and try again. Please contact Govee team for help if it still failed.

07

Using the Device with the Govee Home

Remote On/Off	Turn on/off the device remotely.
Timer Setting	Turn on/off the device at preset time automatically.
Off Delay	Automatically turn off the device after the time period you preset.

Warm Tips:

The Govee Wi-Fi Socket can be used with the electric fan, humidifier, LED bulbs and more electric appliances. Remotely control them on the Govee Home app.

08

Troubleshooting

- 1 Fail to connect to Wi-Fi.
 - a. Make sure the distance between the device and the router is less than 100ft.
 - b. Keep as few obstructions (e.g. wall, windows) as possible between the device and the router.
 - c. Make sure the Wi-Fi name and the password you entered is correct.
 - d. Make sure the Wi-Fi you connect to is 2.4GHz. 5GHz is not supported.

09

2 Cannot use the device with the Govee Home app on your tablet./Cannot display the whole app interface on the tablet.

Please turn off the portrait orientation lock — hold your tablet upright — turn on the portrait orientation lock.

3 How to exit the pairing mode?
a. Plug out the Smart Wi-Fi Socket and re-plug it in.

b. It exits the pairing mode 3 minutes later automatically.

4 Lost W-Fi connection./Cannot use the device with the app.

10

a. Make sure your home Wi-Fi works well.
b. Check whether the Wi-Fi password has been modified.

c. Keep as few obstructions (e.g. wall, windows) as possible between the device and the router.

d. The Wi-Fi-enabled range will be shortened if the power of the electric appliance is too high.

e. Check whether the device has connected to Wi-Fi by the indicator. If the indicator is red or purple, please re-connect the device to Wi-Fi as steps mentioned above.

11

Warning

1 Do not press the On-Off button quickly and frequently.

2 Do not plug in the appliance whose power is higher than 1100W.

Specifications

Input	AC 100 - 240V 50/60Hz
Output	10A Resistive (Max)
AC Frequency	50 - 60Hz

12

Max Total Output Power	1100W
Working Temperature	-10°C - 60°C (-4°F - 122°F)

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B

digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
