

<p style="text-align: center;"><b>Solder Board-Component View 4</b></p>	 <p>A photograph of a green circular printed circuit board (PCB) with various electronic components and solder joints. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. The board has several silver-colored components, including what appears to be a microcontroller or IC, and various soldered connections.</p>
<p style="text-align: center;"><b>Solder Board-Component View 5</b></p>	 <p>A photograph of a smaller green rectangular PCB with several components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm. The board features a yellow component labeled 'BCK-15-116T', a black component, and several silver-colored components. Text on the board includes 'PC82219', 'REV1.0', '2021.10.16', '94V-0', 'SK-DI', and '13250487'.</p>

<p style="text-align: center;"><b>Solder Board-Component View 6</b></p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 6'. The component is rectangular and populated with various electronic components, including several integrated circuits (ICs), resistors, and capacitors. It is placed on a blue textured surface. A black ruler with white markings is positioned to the left and bottom of the component for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The component is approximately 40 mm wide and 25 mm high.
<p style="text-align: center;"><b>Solder Board-Component View 7</b></p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 7'. The component is rectangular and populated with various electronic components, including a large central IC, resistors, and capacitors. It is placed on a blue textured surface. A black ruler with white markings is positioned to the left and bottom of the component for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The component is approximately 40 mm wide and 25 mm high.

<p style="text-align: center;"><b>Solder Board-Component View 8</b></p>	 <p>A photograph showing a green PCB component mounted on a blue perforated board. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 20 mm. The component has several circular pads labeled 'TX', 'RX', 'GND', and '3V3'. There are also some alphanumeric markings on the component, including '1000150' and '2000 8030'.</p>
<p style="text-align: center;"><b>Antenna View</b></p>	 <p>A photograph showing the same green PCB component from a different perspective. A red box highlights a specific area on the component, and a red line points to a label 'WIFI Antenna' located in the top left corner of the image. The ruler and blue board are also visible, providing a scale for the component's size.</p>
