

Model number: WP003x.

Description: Wireless charger

## Safety notes

Before using the product, please familiarize yourself with all of the safety instructions and instructions for use!

When passing this product on to others, please also include all the documents!

**WARNING! DANGER TO LIFE AND RISK OF ACCIDENT FOR INFANTS AND CHILDREN!  
DANGER! RISK OF SUFFOCATION!**

Never leave children unsupervised with the packaging material. The packaging material poses a suffocation hazard. Children frequently underestimate the dangers. The packaging material is not a toy.

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision. The product is not a toy.

**ATTENTION! Damage to property** Check the product before every use! Discontinue use if any damage to the product or the connection cable is detected!

This product does not contain any parts which can be serviced by the user. Keep the product away from moisture, dripping and splash water! Do not place burning candles or other open fire on or next to the product. If you notice smoke or unusual noise o

r odour, immediately disconnect the USB connection. Sudden temperature changes may cause condensation inside the product. In this case, allow the product to acclimate for some time before using it again to prevent short circuits! Never use the product near flammable gases or potentially explosives areas (e.g. paint shops), as the radio waves emitted can cause explosions and fire.

The user of the product is solely responsible for rectifying malfunctions caused by unauthorized changes to the product and the replacement of such modified products.

### Main Features

Wireless charger, 10W fast charge, compatible with 10W/7.5W/5W power supply.

Multiple protection functions: over-voltage protection, under-voltage protection, over-current protection, over-temperature protection.

Support FOD foreign body detection.

### Operating instructions

#### 1). LED indicator Description:

Power on: the red and blue lights flash alternately 4 times

Standby: red light is always on

Charging: blue light is always on

Full charging: red/blue light is off

abnormal or FOD: blue light flashes

#### 2) FOD foreign body detection:

Support FOD foreign body detection function. When metal or magnetic foreign objects are detected, the blue light of the wireless charging indicator will flash to avoid power consumption or charging failure.

#### 3). Multiple protection:

Over-voltage protection, under-voltage protection, over-current protection, over-temperature protection, etc., make charging safer and more reliable.

#### 4) Wireless charging input voltage/current:

The charging adapter meets the following conditions:

Adapter:

IN: DC adapter 5V/2A, OUT: 5W

IN: DC adapter 9V/2A, OUT: 10W/7.5W/5W

Accessory: Micro-USB port line, output current 2A, line length is 0.7 meter.

### FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept

any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, Human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation
