1 x 2-in-1 Wireless Charger
1 x Charging Cable
1 x User Manual

FCC Statement
This equipment complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference from any authorized radio transmitter.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for uncontrolled environments. This transmitter must not be operated or opened in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for class B digital devices, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to residential operations. This equipment is a Class B digital device, which when used with the antenna, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to your television reception, which can be determined by turning the equipment off and on, we recommend that you take the following steps:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for uncontrolled environments. This equipment should be used only as intended.

FCC ID: J2420-W704

Important WEEE Information
This product is made of plastic and/or incorporating electronic materials that, under the new Directive 2012/19/EU on waste electrical and electronic equipment (WEEE), products used electrical and electronic equipment (EEE) should not be mixed with general household waste. For proper treatment, recovery, recycling, please take the following steps: (1) Separate the product from the waste according to the sign. (2) Dispose of the product correctly. (3) Help save valuable resources and prevent any potential negative effects on human health and the environment, which could otherwise arise from inappropriate waste handling. (4) Please contact your local authority for further details of your nearest recycling collection point. (5) Resellers may be applicable to recover disposal of this waste, in accordance with your national legislation. For professional users in the European Union: If you wish to dispose of electronic equipment (EEE), please contact your dealer or supplier for further information. For disposal in countries outside of European Union: The product may only be in the European Union (EU). If you wish to discard this product, please contact your local authorities or dealer and ask for the correct method of disposal.
