## FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## RF Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment

## 04. Warning

Please read this manual before using the device to ensure safe and proper use. Images may differ in appearance from the actual product. Content is subject to change without prior notice. Appearances and specifications are subject to change without prior notice. Failure to comply with safety warnings and regulations can cause serious injury, property damage or death. Do not use the device for anything other than its intended use. Your device may malfunction. Do not insert the device or supplied accessories into the eyes, ears, or mouth. Doing so may cause suffocation or serious injuries. Do not bite or suck the device. Doing so may damage the device or result in an explosion or fire. Children or animals can choke on small parts. If children use the device, make sure that they use the device properly. Do not use damaged power cords or plugs, or loose electrical sockets. Unsecured connections can cause electric shock or fire. Use manufacturer-approved charging cable, accessories, and supplies. Using generic chargers may shorten the life of your device or cause the device to malfunction. They may also cause a fire or cause the battery to explode. Do not store your device near magnetic fields. Your device may malfunction. Magnetic stripe cards, including credit cards, phone cards, passbooks, and boarding passes, may be damaged by magnetic fields. Protect the device and charger from damage. Avoid exposing your device to very cold or very hot temperatures. Extreme temperatures can damage the device and reduce the charging capacity and life of your device. Never use a damaged charger or battery.

## 05. Caution

Do not use or store your device in areas with high concentrations of dust or airborne materials. Dust or foreign materials can cause your device to malfunction and may result in fire or electric shock. Prevent the multipurpose jack and the small end of the charger from contact with conductive materials, such as liquids, dust, metal powders, and pencil leads. Conductive materials may cause a short circuit or corrosion of the terminals, which may result in an explosion or fire. Keep your device dry. Humidity and liquids may damage the parts or electronic circuits in your device. Do not turn on your device if it is wet. Do not drop or cause an impact to the charger or the device. Handle and dispose of the device and charger with care. Never dispose of the device in a fire. Never place the device on or in heating devices, such as microwave ovens, stoves, or radiators. The device may explode when overheated. Follow all local regulations when disposing of used device. Never crush or puncture the device. Do not disassemble, modify, or repair your device. Any changes or modifications to your device can void your manufacturer's warranty. If your device needs servicing, take your device to a Service Center. Do not use your device with the back cover removed. Doing so may result in damage or malfunction. Do not drop your device or cause impacts to your device. Your device may be damaged or may malfunction. If bent or deformed, your device may be damaged or parts may malfunction. Do not touch the device, power cords, plugs, or the electric socket with wet hands or other wet body parts. Doing so may cause electric shock. Do not pull the power cord excessively when disconnecting it. Doing so may cause electric shock or fire. Do not bend or damage the power cord. Doing so may cause electric shock or fire. Do not use your device outdoor during a thunderstorm. Doing so may result in electric shock or device malfunction. Turn off the device in potentially explosive environments. Turn off your device in potentially explosive environments instead of removing the battery. Always comply with regulations, instructions and signs in potentially explosive environments. Do not use your device at refueling points (petrol stations), near fuels or chemicals, or in blasting areas. Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or accessories.

## O6. Notice

There may be some events such as wireless charging begins after 4-5 seconds even though your device is positioned on a charging area properly. It is a normal situation that magnetic field is transferring between a charging pad and a mobile device. The device can be used in locations with an ambient temperature of 0°C to 35°C. You can store the device at an ambient temperature of -20°C to 70°C. Using or storing the device outside of the recommended temperature ranges may damage to the device or reduce the battery's lifespan.
