

### MODEL DESCRIPTION AND DIFFERENCE

The model of AM deactivator series

description

CSS AM deactivator has two types:DB104/F4 & DB112/F4.The

unique difference between DB104/F4 and DB112/F4 is coil size.

DB112/F4 has the bigger coil size, it's the main test type.DB112/F4

has the bigger gain of coil.

We Beijing CSS Technologies Development Co., Ltd. hereby declare

that the layout of PCB in the AM deactivator series are same, and the

size are same too, the unique difference is the deactivator pad coil

gain.

We'll be responsible for any consequences caused by other

differences in the AM deactivator series.
