

Unionnew

Radio Equipment directive: 2014 / 53 / EU

This product can be used across EU member states.

RF power(output): 51.34dBμV/m

RF distance:20cm

Wireless Charger

LXWCD02A User Manual

FCC ID:2AQK7-LXWCD02

For safety and proper use, please read this User Manual before using the product

Shenzhen Unionnew Technology Co.,Ltd.

1.Product Overview

Product Parameter

Name	Wireless Charger
Model	LXWCD02A
Size	75.5*75.5*3.3mm
Input	5V=2A/9V=1.67A
Output	5V=1A/9V=1.10A
Frequency	120KHz ~ 140KHz
Work Distance	0mm ~ 3mm
Cable Length	≈1m
Scope	Support wireless charging for mobile which has Qi certified wireless charging function, eg. iPhone, Samsung, LG, Moto, etc.
Product List	Wireless Charge Deviec X1, User Manual X1
Certification	CE FC RoHS REACH

*The above parameters are from the testing result of Shenzhen Unionnew Technology Co.,Ltd., the actual data may have difference due to the mobile or other factors.

2.Wireless Charger User Guide

- Put the wireless charger USB to adapter port, and put your phone to the transmitter surface, make sure the phone center and transmitter core are pretty match.
- Remove your phone once charging is completed.

(Note: To display clearly, Wireless Charger is enlarged in the above picture, the actual size is subject to the real product)

3. Indicator

- Connect the wireless charger to the USB port, The white indicator will be light on for about 4 seconds for self-check.
- Indicator light will self-check every 3 seconds at standby mode.
- Indicator light is always on at charging mode.
- If indicator light flashes every second when charging, it's because the output power is too low. We suggest you to change the adapter.
- If indicator light flashes very fast or lights off, please check if you placed the Wireless Charger and the mobile properly and please make sure there is no metal placed between the Charger and the mobile.

4.Safety Instructions

If your mobile is running APP with high power consumption, or is running APP for a long time, while charging wirelessly, the mobile may heat up. It is normal situation, will not influence the life or performance of the mobile and the Wireless Charger.

- Do not use the mobile with metal accessories for wireless charging. And make sure there is no metal between Wireless Charger and mobile.
- The applicable operation temperature range is from 0°C to 35°C. Using the Wireless Charger out of the suggested temperature range, may damage the product.
- Use the quick charger which is applied to international safety standards (5V/2A or 9V/1.67A).
- Avoid children and pets chewing, swallowing or playing the Wireless Charger.
- Do not disassemble, modify or repair the Wireless Charger by yourself.
- Do not place the magnetic stripe card (e.g. credit card, phone card, bank passbook and record card) near the Wireless Charger while charging, to avoid the magnetic field generated by the Wireless Charger to damage the magnetic stripe card.
- Do not use the Wireless Charger if it's punctured or corrosive. Do not stuff any object into the slot of the Charger. Do not place weights on it or squeeze it hardly. Do not pull the cable of the Wireless Charger.
- Please use the Wireless Charger under stable power condition

5. Troubleshooting

Please refer to below terms and conditions to solve the charging problem if any. Contact your distributor or appointed serviceman if the problem still exists.

- The Wireless Charger can not work
 - Check if the USB port of the Wireless Charger is ok;
 - Check if the adapter is ok. You may test with other quick charger which satisfied with our requirement.
 - Check if the mobile is covered with metal shell.
- The charging is interrupted or the mobile cannot be fully charged.
 - Check if the adapter is applied to international safety standards 5V/2A, 9V/1.67A.
 - Check if the receiving area of the mobile is aligned with the Wireless Charger's emission area.

6.Transportation, Storage, and Recycle

- Keep the Wireless Charger in clean, dry and ventilated environment during transportation. Avoid fierce vibrate, strike or extrusion. Avoid the Wireless Charger to be exposed to the sun and rain. The Wireless Charger can be transported by truck, train, ship, or plane.
- The environmental temperature of storage should be from -20°C~50°C, the ambient humidity should be less than or equal to 90%. Please avoid touching with corrosive material. Keep away from the fire.
- The Wireless Charger cannot be thrown away as household garbage. To protect the environment, abandoned product should be taken to the electronic product collection points for recycling.

Hazardous substance test result:

Part Name	Name and Content of Hazardous Substance					
	Lead	Mercury	Cadmium	Chromium VI	PBB	PBDEs
PCBA	0	0	0	0	0	0
Plastic	0	0	0	0	0	0
Metal	0	0	0	0	0	0
Ferrite	0	0	0	0	0	0

- O: Content of the hazardous substances in all homogenous materials of the part is below the prescribed limits in accordance with GB/T26572 standard.
- X: Content of the hazardous substances in a homogeneous material of the part is exceeding the prescribed limits in accordance with GB/T26572 standard.

7.Warranty

The warranty period for this product is 1 year since you buy it, you can repair or replace without charge within 1 year guarantee. if you have any confuse, please contact with the distributor for more help.

This warranty is not suitable for the following items:

- Wireless charger is not belongs to us.
- Product damaged by nature accident, for example, earthquake and strong strom.
- Disassembled or modified, wrong placed, and subjecting the product to abnormal working conditions may damage the product.
- Damage the product label.
- Out of warranty period.

FCC statements:

Federal Communication Commission (FCC) Radiation Exposure Statement

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
