To whom it may concern,

I am writing this letter to attest that the Arity Development Product,

ATCB ID: ATCB023546
FCC ID: 2AQOAAARTST2001
Device Name: Arity Telematics Sensor Tag

has been manufactured strictly for pre-production engineering evaluation purposes only. Arity declares none of the product listed above has been sold anywhere in the world and subsequent production has been stopped. This is a result of change in business direction during the engineering evaluation to which the product was deemed no longer applicable to any of our business needs. As such we would respectfully request that the FCC ID for this product be dismissed.

Sincerely,

A handwritten signature in blue ink, appearing to read "Emad Isaac", followed by a horizontal line and a small graphic element consisting of two vertical bars and a dot.

Emad Isaac
CTO/VP Engineering, Arity LLC
