Dear Sir/Madam,

As requested by Dekra, below explanation on relation INX - Garmin naming in many docs provided for Padi 31.3. (Like Schematics- Like BT info - Like Layout)

- Garmin is supplier to INX (and to BMW) BUT with a full design responsibility of the Main RSE PCBA (contains BT Chip) -Ext PCBA - Camera PCBA (contains BT Antenna) . This also means full design and performance responsibility of the Bluetooth related information and performance
- Innolux-CarUx is integration - assy and test responsible for the Garmin parts and Tier 1 towards BMW
