

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

#### -Reorient or relocate the receiving antenna.

 $( \bullet )$ 

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## Wireless Over-Ear Headphones

Quick Start Guide

### **Wireless Over-Ear Headphones Instructions**

#### Introduction

Altigo Over the Ear Headphones provide studio quality sound in a comfortable, ergonomic design you can wear all day. This easy quick start guide will teach you how to take advantage of all the premium features.

#### **Comfort-Fit Features**

The Altigo Over Ear Headphones have an adjustable headband and earcups that rotate and hinge to give you a customized fit. The headphones should sit comfortably on your head with the earcups angled forward. When you're finished using your headphones, the earcups collapse inward to fit easily in the carrying case.

#### Music and Call Controls

Buttons for music and call controls are located on the outer ring of the right earcup. The raised symbols on the Plus and Minus buttons make them easy to navigate by touch.

#### Power/Play/Pause Button

- Quick press Play/Pause/Answer call/End call
- Long press Power on/Power off/Deny call
  Plus button (right)
- Ouick press Volume up
- Hold Track next song

#### Minus button (Left)

 $(\mathbf{\Phi})$ 

- Quick press Volume down
- Hold Track previous song

#### Power and Pair

- 1. Make sure your device's Bluetooth® connection is on.
- 2. Press and hold the Power button until the LED flashes white and red, indicating pairing mode.
- 3. On your device, select "Altigo Over-Ear Headphones." Complete any additional steps your device requires.
- 4. The LED will flash white every four seconds while your headphones are on and paired with your device.
- 5. To turn your headphones off, press and hold the Power button for three seconds. The LED will flash red twice while powering off.

#### **Charging the Headphones**

To charge your Altigo headphones, connect the micro USB end of the included charging cable to the port on the bottom of the right earcup. Connect the USB end of the charging cable to your preferred USB outlet. The LED will light red while the headphones are charging and will turn white when they are fully charged.

#### Wired Listening

You can connect the headphones to your device for wired listening by plugging the included auxiliary cable into the 3.5 mm port on the bottom of the right earcup and connecting the other end of the cable to your device.

#### Included in this Package

Altigo Wireless Over the Ear Headphones Storage Pouch Micro USB Charging Cable Auxiliary Cable
