NOTES BEFORE USE

This product is designed with full attention for safety performance. To ensure safe operation, please follow the following rules:

1. Place the speakers in a stable position avoid fall and cause damage or personal injury.
2. Do not drop, disassemble, open, crush, bend, puncture or burn the speaker.
3. Do not place close to any heat source (such as radiators, heating equipment, stoves, or other heat-generating equipment).
4. Please send to a professional maintenance staff to repair the speaker for any reason damaged.
5. Before wiping with a dry cloth to clean the speakers, set the power switch to the off position and unplug the power cord from the power outlet.
6. Health considerations, please adjust the sound to a suitable level.

SAFETY INSTRUCTIONS

Read all instructions

Only charge with devices rated and marked with 5V to avoid damage to the speaker.

Do not open up the speaker, it voids the warranty and may damage the product.

Rechargeable batteries have a limited number of charge cycles. Battery life and number of charge cycles varies by use and settings.

Never place the speaker close to high temperature heat sources. To keep the warranty valid, never try to repair the product yourself.

EXPLANATION

1. The symbol indicates: The product is only suitable for the safe non-tropical climates.
2. Note: Please use the same type or equivalent type of battery to replace if the battery is scrapped. Otherwise an explosion may occur.
3. The lithium battery may not be exposed to fire or excessive heat.

FAULT AND MAINTENANCE

First fault: connection failed.
Solution:

1. Please check whether the multifunction indicator light flashes blue. Please power on your speakers if the light isn't on. Please charge the speaker if the light is still not on.
2. Please turn off the other Bluetooth devices, if there are many Bluetooth devices surrounding. This may result in search difficulties.
3. Restart wireless speaker on devices for Bluetooth search function.

Second problem: The music player sound breaks.
Solution:

1. View the distance between the player and the speaker. the Bluetooth connection distance is about 8-12meters.
2. Ensure there is not any obstacle between the play device and the speakers.
3. Check the playback device or whether the speaker is in a low power state.

TROUBLESHOOTING
The speaker does not turn on?
Recharge your speaker.

The speaker does not turn off or does not respond?
Reset your speaker.

There is no sound?

- Adjust the volume.
- Make sure that your Bluetooth device is within range.
- Ensure there is no obstacles in the way that can block/ disturb the signal.
- Check via the device's Bluetooth connection if the speaker is connected with the device.

8 English 9

There is poor sound quality?
Move the device closer to the speaker or try removing obstacles between them.

Cannot connect the device with the speaker?
Disconnect other connected devices and then try again. You can force a disconnection by moving out of Bluetooth range (8-12 m).

10 English 11

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
