

BT21 WIRELESS CHARGER 10W

PRODUCT SPECIFICATIONS

- Input : DC 5V-2.1A / 9V-1.67A
- Output : 5V-1A / 9V-1.1A(10W)

HOW TO USE

1. Connect the supplied AC wall adapter to the charging base and to the wall outlet.
2. Place the wireless device on the wireless charging base. Make sure the center of the device is aligned over the center of the charging base. Charging will begin on contact.

CAUTIONS FOR PRODUCT

- Do not decompose and remold for any other purposes. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.
- Do not lay the magnetic striped cards, magnetic record media and precise machine too close the protect.
- Do not touch the wireless charger with wet hands or store in environments with high temperature and humidity to avoid electrical shock.
- Do not pull the cable jacket strongly. It can be cause of failure.
- Keep away from children's reach and do not swallow.
- Do not get close to fire and heat.
- There is no responsible for damages resulting from any loss of data in use.
- The input can be up to 9V/1.6A when use QC adapter. If you use and ordinary power adapter, the charger current must be up to 2A or above.
- If your device does not support fast wireless charging(10W), this product will provide standard wireless charging(5W) instead.
- Ensure the cell phone receiver coil is put in the middle of wireless charger coil when charging, otherwise will lead to fail to charge or stop.
- Cell phone may not be charged or charging efficiency may be impaired if the cell phone case is thicker than 5mm or metal.
- Avoid places with direct sunlight, high temperature and humidity.

FCC (Federal Communications Commission)

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device should be installed and operated with minimum 20 cm between the radiator and your body.

WARNING: This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.

This device complies with part 15 of the FCC's Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesirable operation.

當地政府主管機關規範與提醒

用戶使用注意事項：(射頻設備需知)

第十二條

經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十四條

低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前項合法通信，指依電信法規定作業之無線電通信。

低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。
