RE: Request for Confidentiality
Applicant: **LINE Friends Corporation**
FCC ID: **2AQTSBFWLC3IN1**

To Whom It May Concern:

Permanent Confidentiality

Request is hereby submitted by **LINE Friends Corporation** to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Block Diagrams**
- **Operational Description**

Above mentioned document contains detailed system and equipment description are considered as proprietary information in operation of the equipment. The public disclosure of the documents might be harmful to our company and would give competitor an unfair advantage in the market.

In addition to above mentioned documents, pursuant to Public Notice DA 04-1705 of the Commission's policy, in order to comply with the marketing regulations in 47 CFR §2.801 and the importation rules 47 CFR §2.1204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices. We are requesting the commission to grant short-term confidentiality request on the following attachments until November 12, 2021.

- **External Photos**
- **Internal Photos**
- **Test Setup Photos**
- **User Manual**

It is our understanding that all measurement test reports, FCC ID label format and correspondent during certification review process cannot be granted as confidential documents and that information will be available for public review once the grant of equipment authorization is issued.

LINE Friends Corporation has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to

competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us

Sincerely,
