Modular Approval Request

FCC ID: 2AQVAEHRTMODULE

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly		No RF shielding.
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	YES (the module has buffered data inputs, integrated in the used IC – nRF52840)	
(c) The module must contain power supply regulation on the module	YES (please refer to the block diagram)	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	YES (printed antenna)	
(e) The module must demonstrate compliance in a stand-alone configuration	YES (please refer to test report)	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	YES (please refer to label)	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	YES (please refer to Integration manual)	

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	YES (please refer to RF Exposure Evaluation Report)	

* Please provide a detailed explanation if the answer is "No."

Yours sincerely,
