USER GUIDE

# WElcomE to thE ActIjoy fAmIly!

Every story has its beginning. This story began under the paw of our beloved furry, four-legged baby Darwin. Dogs cannot learn to talk, but we can learn to understand. The Actijoy story is about the connection between man and dog and finding the best way to ensure that dogs get the same care as family members. Thanks to your purchase, this story and our two years of effort can continue.

You can read more about Darwin at [actijoy.com/ourstory](https://actijoy.com/ourstory)

# thE ActIjoy BUDDy PAck

- Actijoy Smart Base Units
- Health & Activity Tracker
- Set of Silicone Holders
- AA Batteries
- Micro USB Cable
- Quick Guide

# fIRStStEPS With thE tRACKER

## charge the tracker

The Actijoy Health & Activity Tracker needs some power first. Use the Micro USB Cable and charge it for at least 60 minutes. The Tracker is fully charged when the green light flashes.

## Download the App

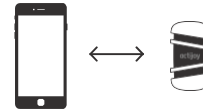

Download the Actijoy App from either Google Play or App Store and make sure your Bluetooth is enabled.

You can plug the enclosed Micro USB Cable into any USB charger or USB port directly into your laptop.

# GETtInG StARtED: hEALth & ActIvItY tRACKER

1. Create a profile for you and your dog. You can add another dog later.
2. Pair the Tracker by following the instructions in the App. The Tracker must be connected to the power with the Micro USB Cable when (first time) pairing.
3. After pairing, the Tracker will light up blue, showing that it needs updating to the latest firmware version. Simply follow the instructions in the App. Once the Tracker is updated, it will light up red as it begins charging, and once it is fully charged it will flash green.
4. The Tracker is now ready for use. Attach the Tracker to your doggy's collar/harness using one of the Tracker accessories.

Do you have issues connecting the Tracker to the App? Make sure your Tracker is charged and that your Bluetooth is enabled.

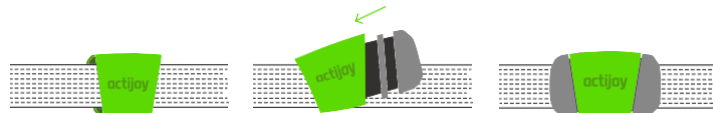

# tRackER AccESSoRIES

Designed with your dog's needs in mind.

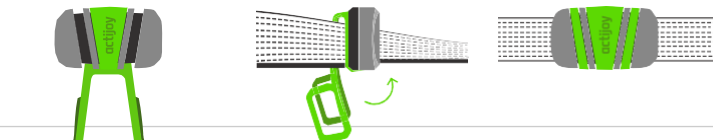

**Townie** is for the city dog that loves walks in the park. This holder makes the LED lights in the Tracker more visible, which is perfect for nighttime walks in the city.

**Explorer** is the perfect choice for adventurous, active dogs. This holder secures the Tracker firmly, protecting it from knocks and scratches.

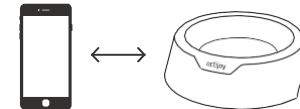

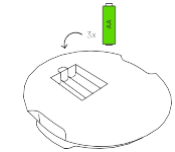

**Trendy** is a great choice for those who like to change their dog's look often. It's easy to swap over in a second and looks great on a harness.

The biggest advantage of Silicone Holders is their resistance to dirt and damage. It also allows easy attachment to a collar, or a harness if you use the Trendy.

# GETtInG StARtED: ActIjoy SmARt BASE Unit

1. Insert batteries into the Actijoy Smart Base Unit with the blue pads on the underside (the water bowl). You will hear a beep to indicate it is ready to use.
2. Twist the Actijoy Smart Base Unit counter-clockwise into position until it clicks.
3. Pair your new Actijoy Water Bowl by tapping on "Devices" in the Actijoy App menu.
4. Repeat steps 1 through 3 with the Actijoy Smart Base Unit with the black pads (the food bowl).
5. Now the WiFi Bowls are ready for use, you can set up the optimal amount of food and water for your dog in the App by going to Menu - Profile - Goals - OPTIONAL.

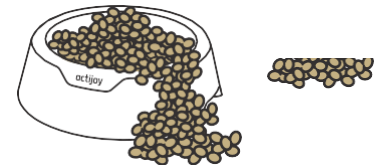

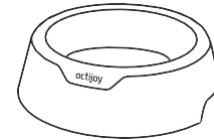

Bowls are multiple-dog friendly and can recognize which dog is using them. Keep in mind that the Bowls are microwave and dishwasher friendly only **WithoUt** ActIjoy SmARt BASE Unit.

# how to USE the Wifi BoWLS

1. Tap the inside of Bowl gently three times to activate the Bowl. The Actijoy Smart Base Unit will start beeping.
2. The beeping will speed up as the amount of food/water in the Bowl increases. Once you've reached the optimal amount of food/water, the beeping will change to a continuous tone.
3. If the amount of food/water in the Bowl is too much or too little, the continuous tone will be interrupted. Remove or add food/water until the continuous tone returns.
4. The continuous tone will stop after five seconds once the optimal amount of food/water in the Bowl has been reached.

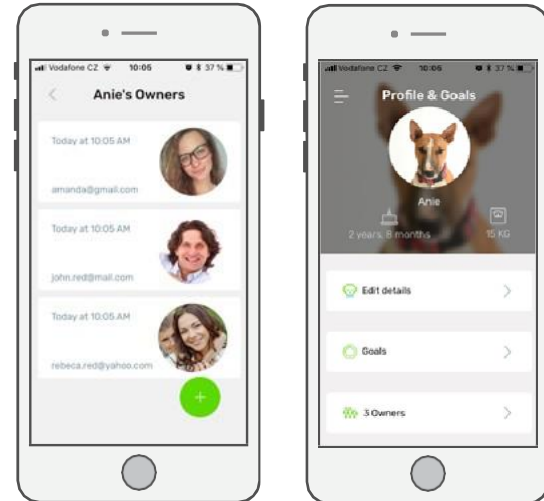

If you do not wish to follow the set goal on a daily basis, you can easily put any amount of food or water in the Bowl and the system will save this amount after 5 seconds of beeping. This does not affect the set goal, only the daily intake.

# Invite A family mEmBER

## let's bring your family "dogether"!

You are a member of the Actijoy family now, so welcome and enjoy! Invite other family members so you can share your joy, photos and all the information you need about your four-legged friends – every dog lover wants to know what their dog does all day, how much they eat, and how active they are. Another benefit of using the Actijoy App is the ability to share photos directly in the App. Thanks to the Healthbook you can also share information with your veterinarian as well as among your family members. So, what are you waiting for?!

# ShARE A DoG

Do you want to share your dog with other family members? First of all, you need to connect a new owner through the Actijoy App.

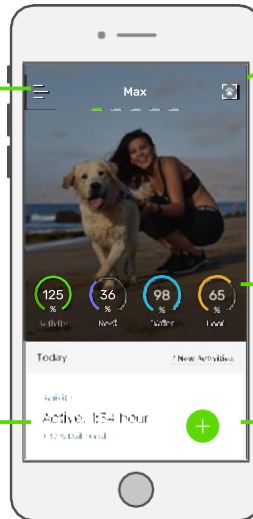

1. Open the App, go to your Profile and tap Owners.
2. Add a new owner by tapping to send an invitation.
3. The new owner will receive an e-mail with your invitation and a verification code.
4. On accepting the invitation, they will be redirected to the App, or to Google Play the App Store if it hasn't been downloaded yet. Go to Sign Up and create an account. Then tap "I Have an Invitation" and enter your verification code, and you are in! The profile can only be edited from the App.

# ActIjoy iOS & AnDRoID APP

The menu bar, where you can add another dog, edit all your profiles, set your App and devices, find the Healthbook, and use the LED lights.

Important events at your fingertips.

Barkfie has various sounds to easily grab your buddy's attention.

Tap for more information.

Take a Barkfie.

Add your doggy's weight.

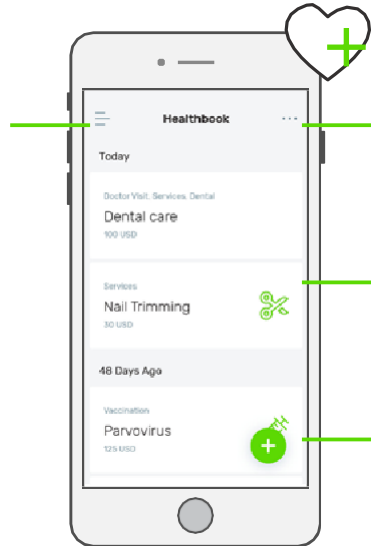

Add a new event.

Tip: Can't connect the devices to your cell phone? Check your Bluetooth.

# thEhEAlthBook

All your important events in one place. Share with the whole family.

Share or filter information from the Healthbook.

Tap for more information.

Do you want to add the date of the next vaccination? Did your doggy have flu? Add important events to your Healthbook and never miss a thing.

Tip: You can share information with your veterinarian and family members through the Actijoy App!

# WARRAnty & REtURn Policy

## 2 year Warranty

Actijoy provides a warranty on all products against defect in material and workmanship for a period of two (2) years from the date of original purchase. You may claim from Actijoy under this warranty even in cases in which Actijoy products were purchased from a third party vendor. This warranty excludes normal depletion of consumable parts such as batteries, unless failure occurs due to defects in materials or workmanship, damage resulting from abuse, accident, modification, unauthorized repair, or other cause that is not considered a defect in material and workmanship.

## Return policy

If you are not satisfied with the product for any reason, you may return the product in its original packaging within two weeks of original purchase to receive a full refund in accordance with the terms and conditions at [www.actijoy.com/pages/terms-conditions](http://www.actijoy.com/pages/terms-conditions).

If a defect arises during the Warranty Period, please contact us at [www.actijoy.com/support](http://www.actijoy.com/support)

# tRackER & BoWL BAttERy, cARE & SAfEtY

## Activity tracker

- Charge the rechargeable battery with the Micro USB Cable. Charging time is approximately one hour.
- The built-in rechargeable battery lasts approximately 1 month on one charge.
- If you use the built-in LED lights, battery life may be reduced. The Actijoy App will inform you of battery life.
- Do not remove or replace the original battery.
- Do not expose the device to heat sources to avoid irreparable damages to the battery and the circuitry.

## food & Water Bowls

- Each Actijoy Smart Base Unit for the Food & Water Bowls requires three AA batteries. The included batteries are not rechargeable.
- The batteries in the Actijoy Smart Base Unit last up to 3 months.
- The Bowls are dishwasher/microwave safe but the Actijoy Smart Base Unit are not. Before you put the Bowls into a dishwasher/ microwave, be sure to remove the Base Units.
- Do not expose the devices to heat sources to avoid irreparable damage to the battery and the circuitry.

## operating temperature

tracker: Operating temperature for a charging Tracker is -15°C to +60°C, Optimum charging temperature: +15°C to +45°C

Actijoy Smart Base Unit: Operating temperature (recommended for alkaline batteries) -15°C to +50°C

## Electromagnetic compatibility

Protect all Actijoy products from magnetic fields and high temperatures. Magnetic fields may cause disruption to the transmission of data to and from Actijoy products and should be avoided in order to prevent malfunction or damage to devices.

This device complies with FCC Rules Part 15 operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.

Changes or modifications to this device, not expressly approved by Six Guys Labs s.r.o. . could void the user's authority to operate the equipment.

## Industry Canada notifications

This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

- This device may not cause interference; and
- This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- l'appareil ne doit pas produire de brouillage;
- l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Rf Exposure Statement: This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

# WEEE AnD cE

The meaning of the symbol on the product, its accessory or packaging indicates that this product shall not be treated as household waste. Please, dispose of this product at your applicable collection point for the recycling of electrical & electronic equipment waste. Alternatively in some states of the European Union or other European states you may return your products to your local retailer when buying an equivalent new product. The correct disposal of this product will help save valuable natural resources and help in preventing the potential negative impact in the environment and human health, which could be caused as a result of improper liquidation of waste. Please ask your local authorities or the nearest waste collection center for further details. The improper disposal of this type of waste may fall subject to national regulations for fines.

Disposal in other countries outside the European Union:

If you wish to dispose of this product, request the necessary information about the correct disposal method from local government departments or from your seller.

These products meet all the basic EU regulation requirements that relate to it. EU declaration of conformity is available on [www.actijoy.com](http://www.actijoy.com).
