**Statement of GSM, W-CDMA, LTE and NR Function Disable**

---

Product: Smart phone  
Model No.: F-52A  
FCC ID: 2AQYEFMP180

---

GSM900, DCS1800, W-CDMA Band I, LTE Band 1, 3, 19, 21, 39, 42, NR Band n78, n79.

The above device has capabilities of GSM900, DCS1800, W-CDMA Band I, LTE Band 1, 3, 19, 21, 39, 42, NR Band n78, n79. These functions cannot be activated by the user in case the Smart phone is used or switched on in the United States. These functions can also not be activated by the user in case the Smart phone is outside of the service area of a mobile phone network while switched on. In both cases, these functions are also not activated automatically.

When the Smart phone is inside the service area of a mobile phone network, it will search all available mobile phone networks. These functions will not switch on automatically unless the Smart phone detects networks having GSM900, DCS1800, W-CDMA Band I, LTE Band 1, 3, 19, 21, 39, 42, NR Band n78, n79, or if the Smart phone detect network having GSM850, PCS1900, W-CDMA Band V, LTE Band 5, 12. Therefore these functions are never activated in the United States where there is no commercial network for those services on GSM900, DCS1800, W-CDMA Band I, LTE Band 1, 3, 19, 21, 39, 42, NR Band n78, n79. While searching for the network the Smart phone does not transmit any signal.
