

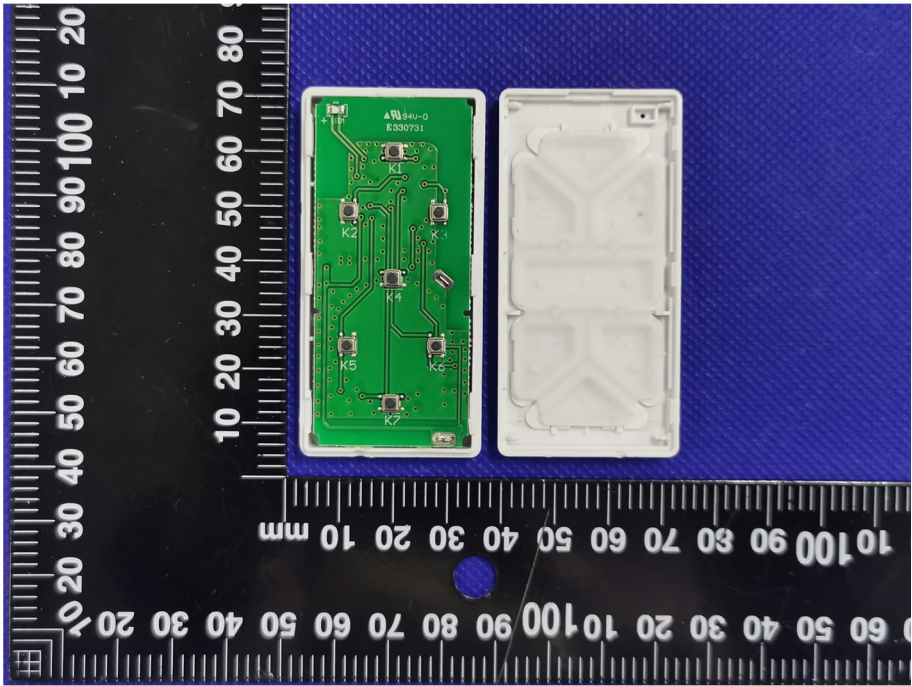

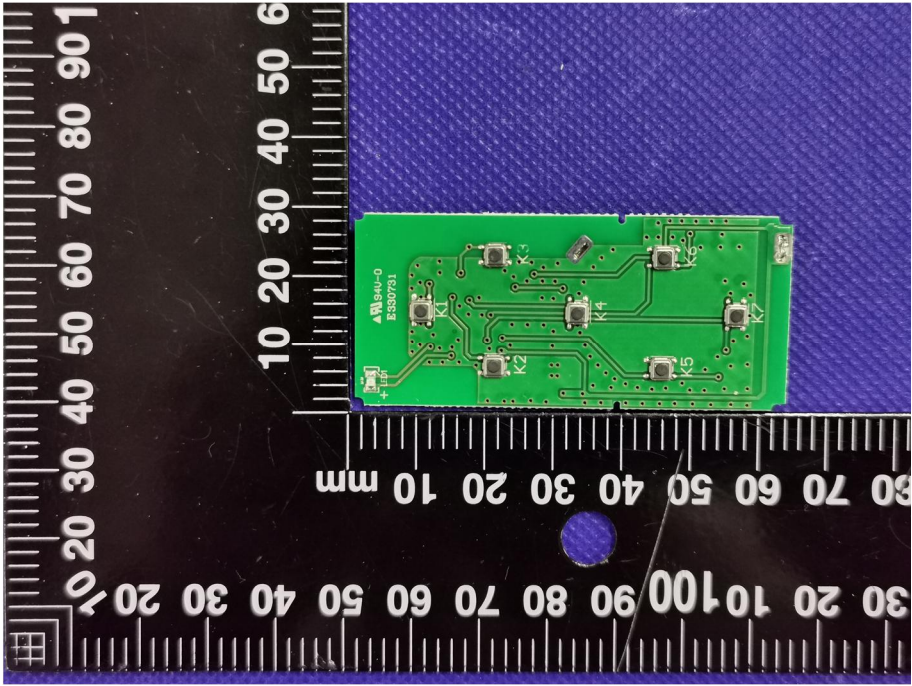

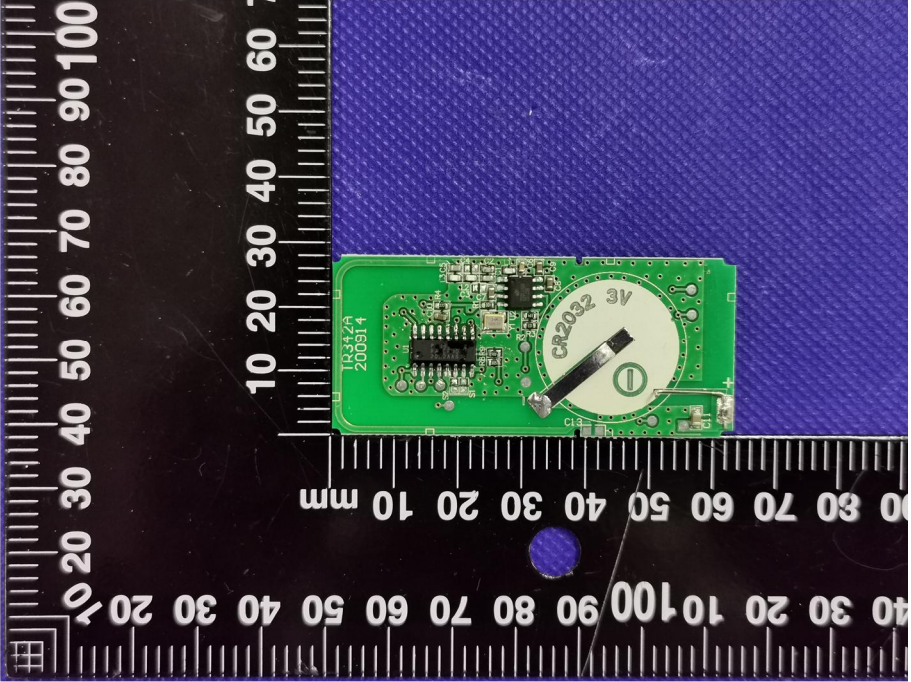

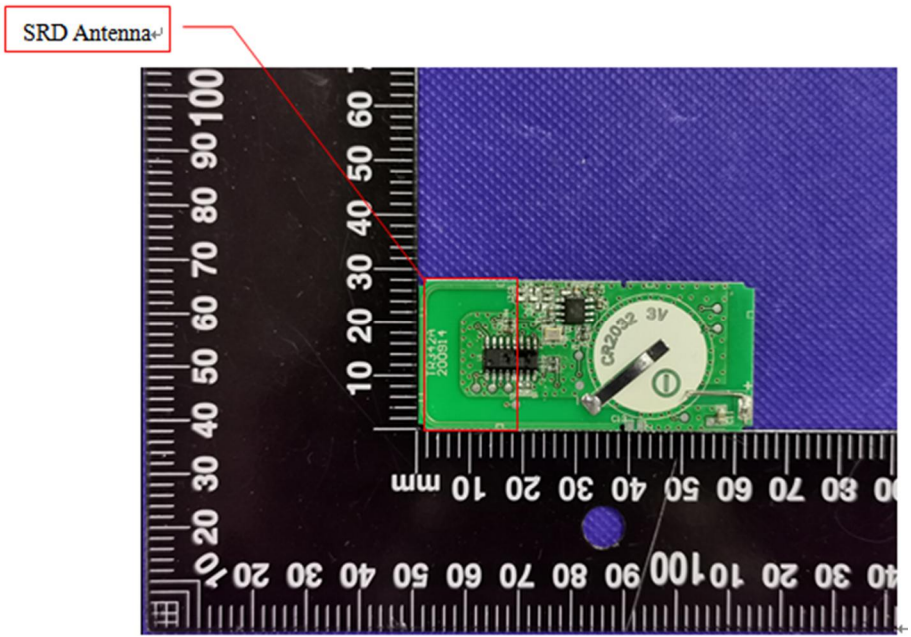

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 3</p>	 <p>A photograph showing a green printed circuit board (PCB) and a white plastic housing component. The PCB is on the left, and the housing is on the right. They are placed on a blue textured surface. A black ruler with white markings is positioned vertically on the left side of the components, showing measurements in millimeters. The PCB has several components labeled K1, K2, K3, K4, and K5. The housing has a rectangular shape with a central slot. The ruler shows the components are approximately 100 mm long and 30 mm wide.</p>
<p>Solder Board-Component View 2</p>	 <p>A close-up photograph of the green PCB component. The board is oriented vertically and shows several components labeled K1, K2, K3, K4, and K5. The board is placed on a blue textured surface. A black ruler with white markings is positioned vertically on the left side of the board, showing measurements in millimeters. The board is approximately 100 mm long and 30 mm wide. The ruler shows the board is approximately 100 mm long and 30 mm wide.</p>

<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph of a green PCB component with a CR2032 3V battery soldered to it. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm. The component has several components on it, including a chip labeled 'IR342R 200814' and a circular component labeled 'CR2032 3V'.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph of the same green PCB component as in the previous view, but with a red box highlighting a specific area on the board. A red line points from a label 'SRD Antenna' to this area. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length being approximately 40 mm. The component has several components on it, including a chip labeled 'IR342R 200814' and a circular component labeled 'CR2032 3V'.</p>
