

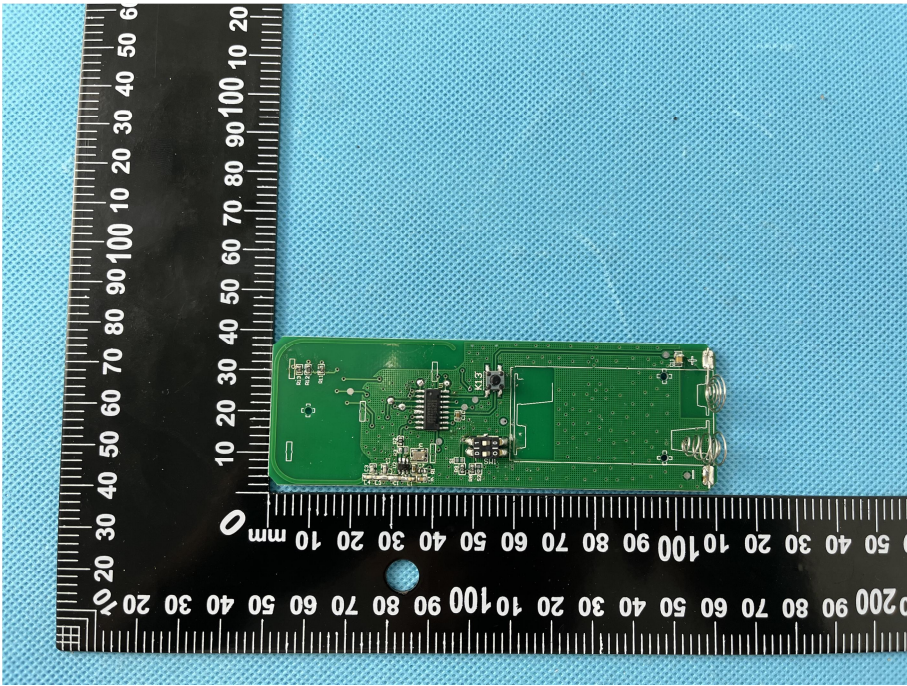

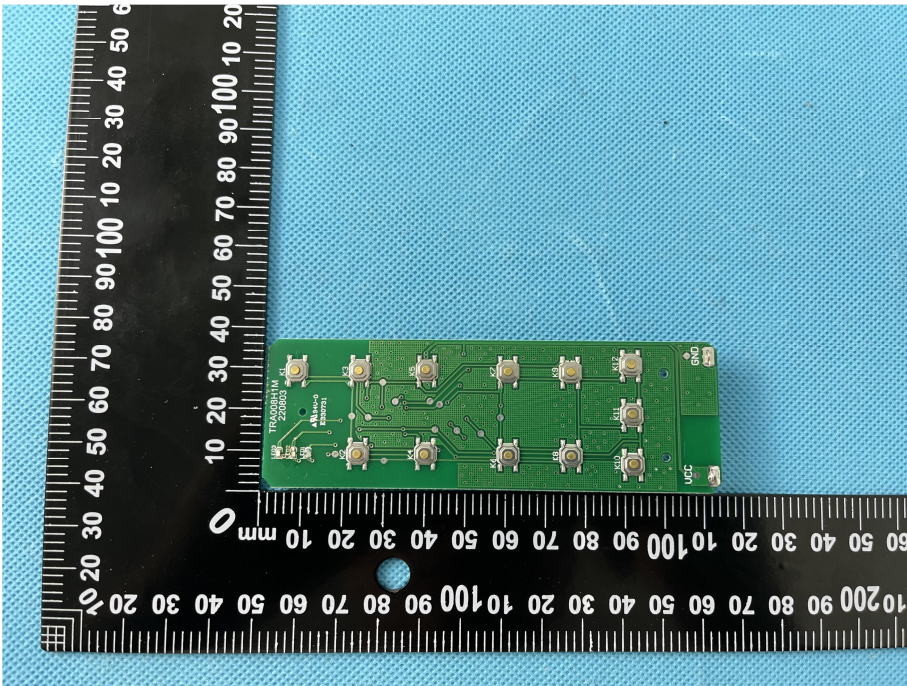

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing the external components of the EUT. On the left is a black plastic housing with a battery compartment. To its right is a small, rectangular black printed circuit board (PCB). Both items are placed on a light blue textured surface next to a black metric ruler for scale. The ruler shows centimeter and millimeter markings.</p>
<p>EUT Housing and Board View 2</p>	 <p>A photograph showing the internal components of the EUT. On the left is a green PCB populated with various electronic components, including resistors, capacitors, and integrated circuits. To its right is the black plastic housing, which appears to be the back cover or a component of the main housing. Both items are placed on a light blue textured surface next to a black metric ruler for scale. The ruler shows centimeter and millimeter markings.</p>

<p style="text-align: center;">Solder Board-Component View 1</p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The board is rectangular and populated with various electronic components, including integrated circuits, resistors, and capacitors. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows the component is approximately 100 mm long and 30 mm wide.
<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. This board is populated with several surface-mount components, including what appear to be microcontrollers or logic chips, and is connected to a multi-pin connector. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows the component is approximately 100 mm long and 30 mm wide.
