

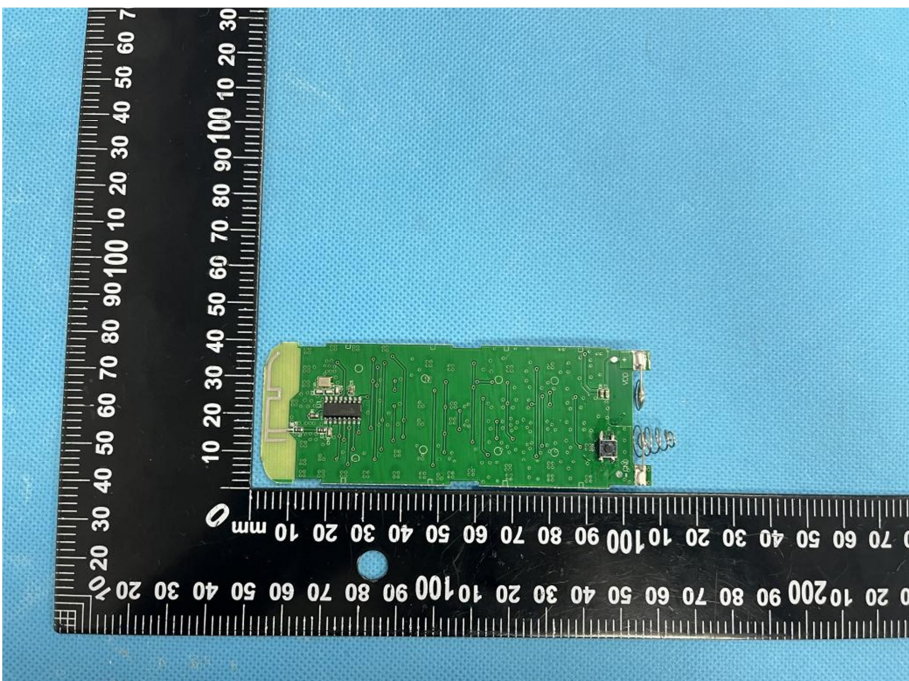

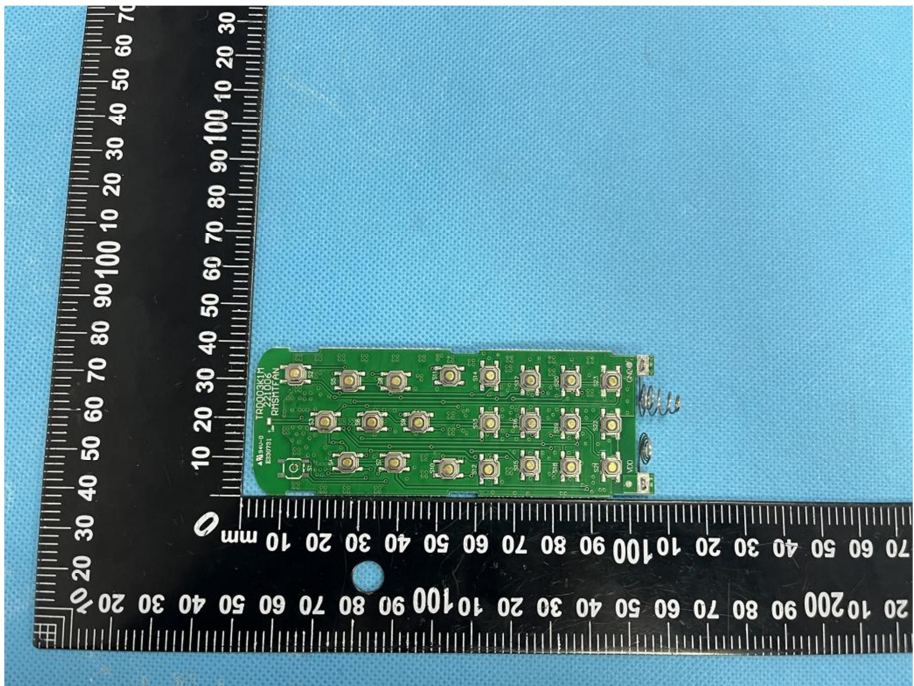

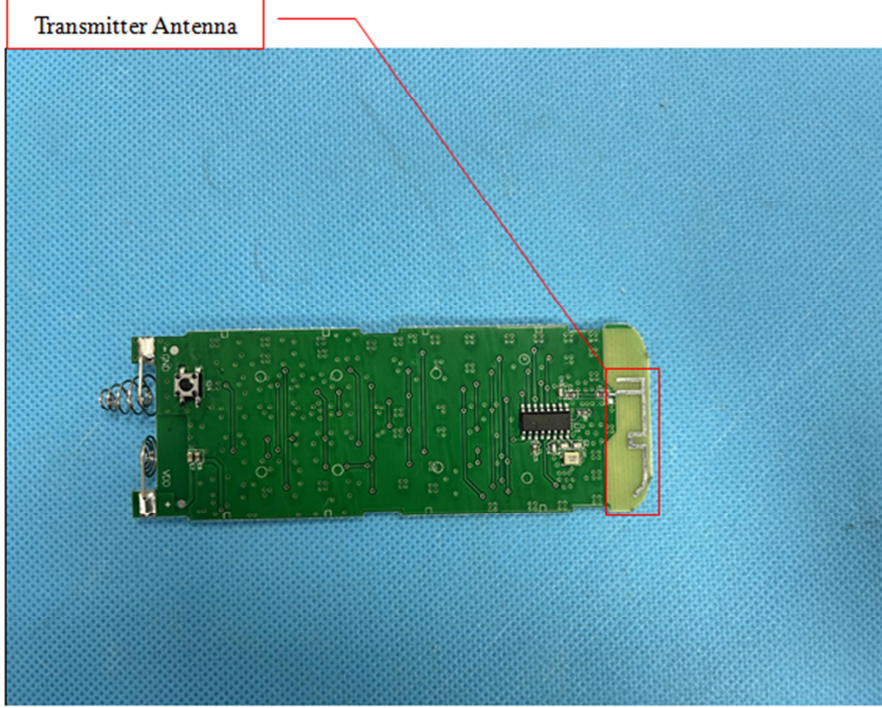

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the disassembled EUT housing and internal board. On the left is the black plastic housing, and on the right is the green printed circuit board (PCB) with various components. A black ruler with white markings is placed vertically to the left of the components for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The background is a light blue textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of the green PCB component. The board is oriented vertically and shows various electronic components, including a large integrated circuit (IC) and several smaller components. A black ruler with white markings is placed vertically to the left of the component for scale. The ruler shows measurements in millimeters, with markings every 10 mm and sub-markings every 1 mm. The background is a light blue textured surface.

<p>Solder Board-Component View 2</p>	 <p>A photograph of a green printed circuit board (PCB) component with several gold-plated solder pads. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The PCB has a small blue circular mark on its surface.</p>
<p>Antenna View</p>	 <p>A photograph of the same green PCB component from a different perspective. A red box highlights a specific area on the right side of the board, and a red line points from this box to a label "Transmitter Antenna" located above the image. The board features various electronic components, including a large black integrated circuit (IC) and several smaller components.</p>
