

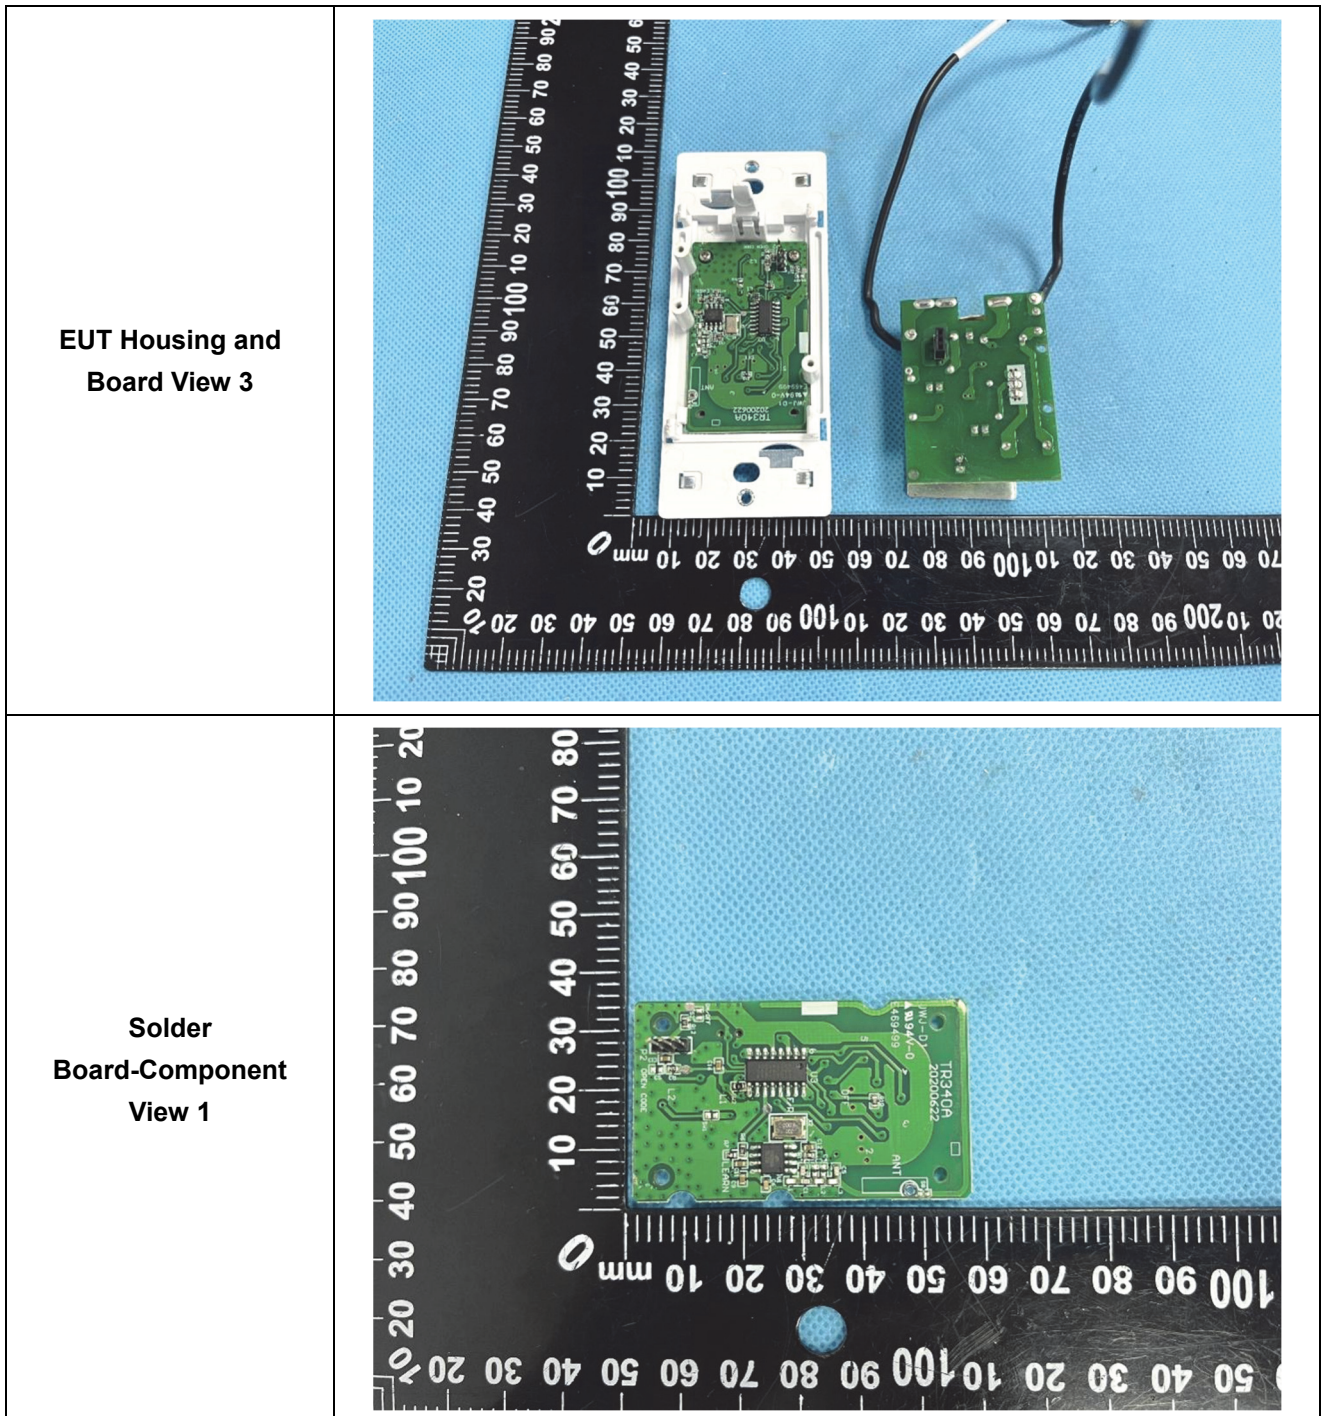

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

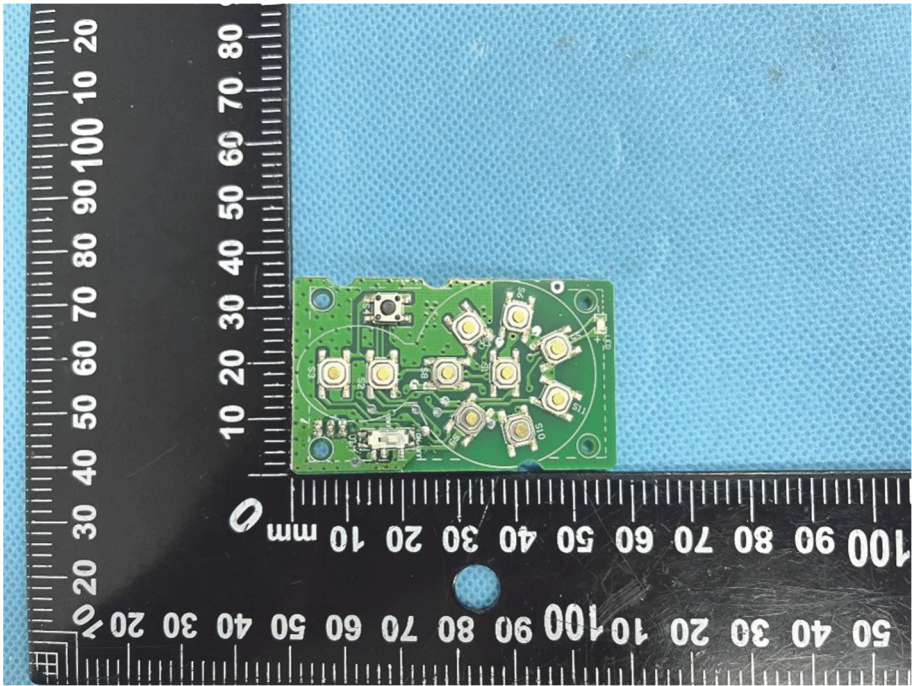

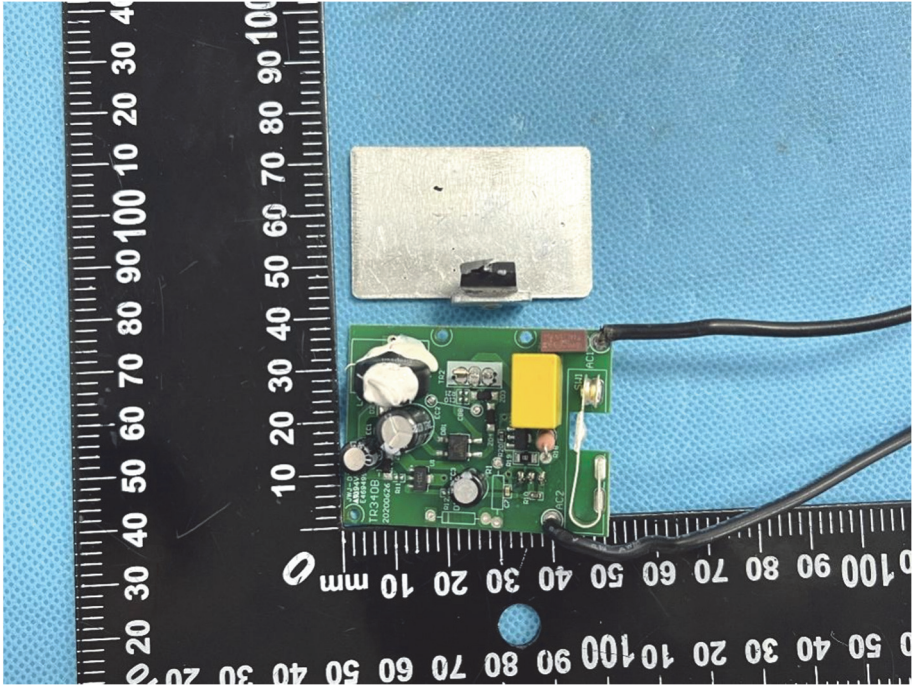

**EUT Housing and Board View 1**

**EUT Housing and Board View 2**

<p><b>Solder Board-Component View 2</b></p>	 <p>A photograph showing a small green printed circuit board (PCB) component with several yellow circular components mounted on it. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 80 mm marks. The board has various components, including what appears to be a microcontroller or similar IC, and several yellow circular components, possibly LEDs or sensors, arranged in a pattern.</p>
<p><b>Solder Board-Component View 3</b></p>	 <p>A photograph showing a different view of a solder board component. This view shows a green PCB with various electronic components, including a yellow capacitor, a white component, and several smaller components. A black cable is connected to the board. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 100 mm marks. The board has various components, including a yellow capacitor, a white component, and several smaller components, possibly resistors or capacitors.</p>
