Subject: Permissive Change 2AR42APPC10SLB

Dear Sirs, Madam,

We request a Class 2 Permissive Change in accordance FCC part 2.1043.

This equipment was originally certified on April 3, 2019, with equipment classes DSS, DTS and NII. At that time, we intended the sDoC route for the operation as a Part 15 B computing device.

Now we wish to change from sDoC to certification, for the authorization of the computing device operation, and therefore add equipment class JBC.

This application includes the model numbers listed in the filing.

All equivalent models declared for the APPC-10XPL, APPC-10SLB, APPC-10SLBW as described in the filed Declaration of Equivalence are covered by this Permissive Change

Kind regards,

Patrick van Schaik
Director

P.v. Schaik
