ALUMINUM CHARGING DOCK

Declutter and simplify everyday charging with the sleek Galvanox Aluminum Charging Stand. Place any Qi enabled device on the stand to enjoy rapid wireless charging.

With the Soft-Glow indicator, you'll always know when your phone is charging. The indicator features adjustable brightness settings or can be turned off completely when in night-mode.

## **Using your Wireless Charging Dock**

---

Connect the Stand and wall charger.

Plug the charger into a power source. When the stand is first powered, the Soft-Glow Indicator will flash from red to blue to green, and then turn off.

Place your Qi enabled phone on the stand. Charging will begin automatically.

Soft-Glow Indicator: On > Dim > Off. The control button on the reverse side of the pad allows you to enable, disable and select the brightness of the Soft-Glow Indicator. Toggle between settings: On > Dim > Off, by pressing the control button.

## **Soft-Glow Indicator**

---

Red: Initializing Charge (may take several seconds as dock optimizes charging speed)

Solid Light: Charging in progress

Note: Indicator color will vary based on device type (specifically devices that support QC charging)

Flashing Red: Foreign metal material detected between phone and charging pad

## **Safety Information**

---

Do not expose to excessive heat, water or moisture.

Do not drop or disassemble.

When cleaning, use a soft cloth, if necessary dampened with a minimum amount of water or diluted mild soap.

Do not use any cleaning agents containing alcohol, ammonia, benzene, or abrasives.

Operate or store in a place where temperature is between -15°C (5°F) and 55°C (131°F) (up to 90% relative humidity).

Charging speed may vary depending on temperature conditions.

## **Warranty**

---

Your new Galvanox Charging Stand is covered by a Limited Manufacturer's Warranty.

Warranty Details: for a period of one (1) year from the date of retail purchase, Galvanox warrants that this product is free of any defects in manufacturing, materials and workmanship. During the warranty period, we shall, at our sole discretion, repair or replace any defective parts within a reasonable period of time and free of charge. Return shipping charges are excluded from warranty coverage.

## **Support**

---

As with all Galvanox products, the Galvanox Aluminum Charging Stand is backed by our quality assurance guarantee. If you should experience any technical or performance issues with your device, or if you simply have a question, we encourage you to contact us at: [hello@galvanox.com](mailto:hello@galvanox.com). We will do everything we can to help resolve any issues.

## FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

RF Exposure: A distance of 15 cm shall be maintained between the antenna and users, and the transmitter may not be co-located with any other transmitter or antenna.
