ROCKERZ 640
Wireless Bluetooth Headsets

USER MANUAL

Model: boAt Rockerz 640

SPECIFICATIONS

Bluetooth version 5.0
 Drivers 40mm
 Impedance 32 ohms
 Transmission Frequency 2402MHz-2480MHz
 Frequency Response 20Hz-20kHz
 Sound Pressure level 94/-3dB @ 1kHz
 MIC Sensitivity -12dB±3
 Wireless Range 10 Metres
 Power Voltage 3.0-4.2V
 Charging Power Voltage 3V
 Charging Current 230 mA
 Music playback 12 hours
 Talk Time 12 hours
 Charging Time 3.5 hours
 Battery Capacity 300mAh
 Product weight 187g

IMPORTANT SAFETY INFORMATION

Listen Responsibly
 To avoid hearing damage, make sure that the volume on your music player is turned down before connecting your in-ear headphones.
 After placing on-ear headphones on your ears, gradually turn up the volume until you reach a comfortable listening level. Noise levels are measured in decibels (dB), exposure to any noise at or above 85 dB can cause gradual hearing loss. Monitor your use; hearing loss is a function of loudness versus time. The louder it is, the less time you can be exposed to it. The softer it is, the more time you can listen to it.

Use Responsibly
 Do not use Rockerz 480 when it's unsafe to do so - while operating a vehicle, crossing streets, or during any activity or in an environment where your full attention to your surroundings is required.
 It's dangerous to drive while wearing on-ear headphones, and in many places, illegal because it decreases your chance of hearing life-saving sounds outside of your vehicle, such as another car's horn and emergency vehicle sirens. Please avoid wearing your on-ear headphones while driving

1. On/Off/Play/Pause/call
2. Volume Up / Forward
3. Volume Down / Previous
4. Micro USB Jack
5. LED indicator
6. Bass effect/Enable or Disable LED

Power ON / OFF
 Press and hold the Multifunction button to turn the headphones ON. The LED indicator will flash when the headphones are turned ON. Press and hold the button to turn the headphones OFF. The LED indicator will stop flashing when the headphones are turned OFF.

Charging the headphones
 Use the Micro USB cable and connect headphones to your computer or adapter device made for USB charging. A LED indicator will turn on when the headphones are charging. The LED light will turn off when headphones are fully charged.

Pairing

1. Make sure your phone, computer or music device is turned on and within 1 meter of each other.
2. Hold down the centre multifunction ON/OFF button for about 3 seconds until LED starts to flash.
3. Activate the Bluetooth feature on your phone or device and set it to search for Bluetooth device (discoverable).
4. Select "boAt Rockerz 640" from the list of found devices.
5. If necessary, enter passcode "0000" to pair and connect the headphones to your device.
6. Once successfully paired, the LED light will flash for a few seconds.

Playback/Controls

1. Press multifunction button Play/Pause to start and pause audio.
2. Press the Vol + button to increase volume. Press and hold Vol + to skip forward to the next track.
3. Press the Vol - button to decrease volume. Press and hold this button to go back to the previous track.
4. Press the other Multifunction button to activate BASS Boost.
5. Press and hold the other multifunction (bass boost) button for 3 seconds to enable or disable the LED.
6. Once successfully paired, the LED light will flash for a few seconds.

Calls

1. To answer an incoming call, press the centre multifunction button.
2. To end call, press the multifunction button again.
3. To redial last number, press multifunction button twice.
4. To reject a call press and hold multifunction button for 2 seconds.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
