is seeking FCC Authorization as a [] Single Modular Transmitter / [X] Single Limited Modular Transmitter (Please check one)
The EUT meets the requirements for [] Single Modular Approval / [X] Single Limited Modular Approval (Please check one)
as detailed in KDB 996369. Compliance to each of the requirements is described below:

Table with 5 columns: Item, Modular requirement, Yes, No, and Please provide a detailed explanation if the answer is "No." It contains 8 rows of requirements related to RF shielding, modulation inputs, power supply, antenna requirements, and FCC ID labeling.

- Note: (1) LMA may be granted when one or more of the requirements in the table above cannot be demonstrated. LMA will also be issued in those instances where applicants can demonstrate that they will retain control over the final installation of the device... (2) Please provide Clear and specific instructions describing the conditions, limitations and procedures for third-parties to use and/or integrate the module into a host device. (3) For non-Software Defined Radio transmitter modules where software is used to ensure compliance of the device, technical description of how such control is implemented to ensure prevention of third party modification must be provided (see KDB 594280).

Note 1: Compliance of a module in its final configuration is the responsibility of the applicant. A host device will not be considered certified if the instructions regarding antenna configuration provided in the original description, of one or more separately certified modules it contains, were not followed. Example: A separately certified low-power transceiver module using Bluetooth technology which is housed in a desktop computer, laptop or peripheral does not require the overall system to be recertified, if the desktop computer, laptop or peripheral, as a stand-alone unit, complies with all applicable technical standards.

LMA Declaration Letter

We, (applicant name), declare that we will retain control over the final installation of the device, (FCC ID: 2AR6I-ZE3221X) so that compliance of the end product is assured. In such cases, an operating condition on the LMA for the module must be only approved for use when installed in devices produced by a specific manufacturer.
