Power off: Long press MFB 4 seconds, red LED flashes with a prompt "Power off".

Note: Low battery alarm: red LED flash several times with a prompt "Battery Low".

Charging

There are no detachable batteries inside the headphone as it uses installed rechargeable batteries. Please do not tamper or change the batteries as this can cause you harm. We will not be held liable for any damages done due to unauthorized tampering or opening of the earphones which in doing so also voids all warranty benefits.

Connect the charging cable's Micro USB port to the earphone and the USB Port to a phone charger/cable charger/adaptor.

computer/power bank or any device with a USB port. When charging, the red LED will be constantly on and will change into blue once the earphone has been fully charged.

Note: Please charge the earphone for 2 hours before using it for the first time.

The earphone is not water, sweat or dust resistant/proof so avoid storing the earphones in damp and wet places where it can incur damages.

Pairing

Pairing and connection with a device:

Step 1: Long press MFB until the LED rapidly flashes red and blue to put into pairing mode.

Step 2: Turn on the Bluetooth on your device and scan for nearby devices until T890 appears. Click on T890 to initiate connection with the earphone.

Note: If the earphone has been paired with a device before, simply press MFB until the blue LED is flashing and the earphone will pair with the device auto matically (make sure device has Bluetooth enabled device have been successfully paired, your device will automatically pair with the earphone and the earphone's LED will only flash blue every so often).

Pairing with 2 devices:

Repeat Steps 1 to 3 for pairing the earphone to 1 device.

Step 4: Turn off Bluetooth application on your first device.

Step 5: Repeat steps 1 to 3 to pair ear-phones with the second device.

Step 6: Turn on the Bluetooth application on the first paired device and click on T890 to connect to the earphone. (note: the earphone should still be connected to the second device)

Step 7: The earphone should now be connected to both devices simultaneously.

Note: If the earphone has been paired with a device before, simply press MFB until the blue LED is flashing and the earphone will pair with the device auto matically (make sure device has Bluetooth switch on)

Note: If your mobile phone is below version 2.1, then you need to enter password "0000".

Important: If the pairing can't be completed within 90 seconds while the pairing mode is activated, which means the pairing is unsuccessful, please repeat Step 1 to Step 5 to pair the headset with the mobile phone again.

Volume Control

Quickly press + button to increase the volume

Quickly press - button to lower the volume
