

October 19, 2018

**Federal Communications Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046**

**Modular Approval Request**

**FCC ID: 2ARCM-6201852**

**The following attestation addresses the requirements to support modular approval:**

<b>Modular approval requirement</b>	<b>Yes (provide brief statement)</b>	<b>No *</b>
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Yes – the module features a shield over the radio frequency circuitry as shown in the photographs in the report filed for this product.	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes – All inputs are buffered from RF signals.	
(c) The module must contain power supply regulation on the module	Yes – the CSR1025 device contains an integral switch-mode power supply for power regulation as shown in the schematic filed with the report for this product.	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes – the module features an integral PCB antenna.	
(e) The module must demonstrate compliance in a stand-alone configuration	Yes – the module has been provided for testing in a stand-alone configuration as shown in the photographs of the test setup included in the report filed for this product.	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB	Yes – label design included in application contains the FCC ID.	

Publication 784748 about labelling requirements)		
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	Yes – user manual included with application.	

<b>Modular approval requirement</b>	<b>Yes (provide brief statement)</b>	<b>No *</b>
(h) The module must comply with RF exposure requirements	Yes – the module complies with RF exposure requirements as reported in the RF exposure report filed for this product.	

\* Please provide a detailed explanation if the answer is "No."

Sincerely,

Brian Nickol
