Object: Class II Permissive change request for NFC/BLE (Gymkit) 5V RS232 board

FCC ID: 2ARDN0615E

HVIN: 0615G

This Letter serves as an official request for FCC approval of a class II Permissive Change for NFC/BLE (Gymkit) 5V RS232 board.

The reason for the Class II permissive change is the replacement of Apple MFI337S3959 – Mfi coproc. V2.0C with IC MFi Coproc. 3.0 MFI343S00177. The replacement is needed because Apple MFI337S3959 – Mfi coproc. V2.0C is in state End of Life and the replacement indicated from producer is MFi Coproc. 3.0 MFI343S00177. The functions are the same between 2 IC, and not are related with radio functions.

Please Refer to schematic “tg^jsc0615_g01.beta1.pdf”, the section changed is reference U2

The laboratory tests are necessary in order to demonstrate that the board remains compliance with FCC rules.

Sincerely,

David Sabbatani
