Lifetime Technical Support

Package Includes

- 1 x T528-S Fast Wireless Charging Pad
- 1 x USB Charging Cable
- 1 x User Manual

Note: The USB cable provided is just for charging, not for data transmission.

Compatibility

CHOETECH T528-S is a Qi standard wireless charging transmitter. It works with most Qi-compliance receiver devices.

Instructions

1. Please make sure that your device is Qi-enabled or installed with Qi receiver kit.
2. Fast charge function only available for Qi-enabled devices or devices installed with Qi receiver kit which support fast wireless charging.

3. A Quick Charger Adapter is required for the fast charge wireless charging feature, please try to use the QC 2.0 / 3.0 or higher adapter (except the adapter from S7 and S7 Edge). For other Qi-enabled devices delivered with a standard charge, please use a 5V/1.5A (min) or above power adapter.
4. Please use the USB cable provided with the wireless charger.
5. The protective case is suggested to be removed during charging period.
6. Please use the original back cover of your device if it needs a Qi receiver card installed before inductive charging.

Troubleshooting

- a. Please confirm that you've followed the instructions.
- b. Whether LED Indicator turns off or not, it depends on your device, not the wireless charger. If the Qi-compliance device couldn't send charging complete signal, LED indicator will keep on lighting.
- c. If the wireless charger has initial blinks, but no response from your device when it is placed on the wireless charger, please try to readjust it.
- d. Please be sure there's no metallic foreign body between your phone and the wireless charger.

Contact Us

For suggestions and/or comments regarding our products or for any quality-related issue, please feel free to contact us at support@chootech.com, our representative will get in touch with you within **24 hours** ... normally less than **12 hours** during business hours.

Statement

1. We're only able to provide after-sales service for purchases made directly from CHOETECH. If you purchased through a 3rd-part retailer, please contact the original seller for service.

Thank you for using CHOETECH T528-S Fast Wireless Charging Pad.

Enjoy CHOETECH items.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/ TV technician for help.
- This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
