Subject: FCC ID change

Dear Gentlemen,

We essence hold few FCC approvals that were issued by Telefication.
Till today essence hold an FCC under one company, "Essence Security international Ltd" (YXG-xxxx).
During the last month we had opened a new FCC ID account under "Essence Smartcare Ltd" (2ARFP-xxxx).
Other than the company name nothing changed, the product P/Ns are also stayed the same
We need to update few of our grantees with the FCC ID.
All original test results continue to be representative and applicable to the equipment bearing the new FCC ID.
