

CPU	MTK6739
Speed	Quad-Core 1.3GHz
OS	Android 8.1 (Go edition)
SIM	Single SIM, Micro
Dimensions	143.5*72.2*9.6mm
Display	5.0" FWVGA
Battery	2000mAh
Memory	1GB RAM 8GB ROM
External Memory	Micro SD
Camera	2.0MP/2.0MP
Multimedia	Video Player/Recorder Music Player, FM
GPS	Yes
Wi-Fi	802.11 b/g/n
Mode	GSM/WCDMA/LTE
GSM Band	850/1900MHz
WCDMA Band	850/1900MHz
FDD-LTE	B2/B4/B5/B17

The colour and specifications of actual devices may vary from the images shown as they are for representation purpose only. Talk and standby time may vary due to network quality, type of SIM cards, connected accessories and individual usage patterns. Specifications may be changed without prior notice. Some Services and features may depend on the network, service/content providers, SIM cards, compatibility of the devices used and the content format supported. **Operator rates may differ based on subscription plans and the country in which the phones are activated.

The rechargeable Li-ion battery that comes with your phone is ready to be used, but is not charged. It is easy to do & can be done in 4 simple steps below:

1. Connect the charger to your phone, and plug it into a socket.
2. The battery indicator in the corner of the screen will scroll to show you it's charging.
3. When fully charged, the battery indicator will stop scrolling.
4. Disconnect the charger from your mobile, and unplug.

Please read through the following briefings carefully, and act in accordance with these rules, so as to prevent causing any danger or violating any law.

- Using your phone safely
- On The Road
- Using a phone while driving is illegal in many countries. Please follow local laws and drive safely at all times.

- Near Sensitive Electronics
- Don't use your phone near sensitive electronic equipment – particularly medical devices such as pacemakers – as it could cause them to malfunction. It can also interfere with the operation of fire detectors and other automatic-control equipment.

- While Flying
- Your phone can cause interference with aircraft equipment. So it's essential you follow airline regulations. And if airline personnel ask you to switch off your phone, or disable its wireless functions, please do as they say.

- In Hospital
- Your phone may interfere with the normal operation of medical equipment. Follow all hospital regulations and turn it off when you're asked to by posted warnings or medical staff.

- At a Petrol Station
- Don't use your phone at petrol stations. In fact, it's always best to switch off whenever you're near fuels, chemicals or explosives.

- Around Water
- Keep your phone away from water (or any other liquid). It's not a waterproof model.

- Making Repairs
- Never take your phone apart. Please leave that to the professionals. Unauthorized repairs could break the terms of your warranty.

- Broken Antenna
- Don't use your phone if the antenna is damaged, as it could cause injury.

- Around Children
- Keep your mobile out of children's reach. It should never be used as a toy and it might not be good for their health.
- Original Accessories

Only use the original accessories supplied with your phone or those approved by the manufacturer. Using unapproved accessories may affect performance, make the warranty void, break national regulations on the use of mobile phones, or even cause injury.

- Near Explosives
- Turn off your phone in or near areas where explosive materials are used. Always obey local laws and turn off your phone when requested.

- Emergency Calls
- To make an emergency call your phone must be turned on and in an area where there's network coverage. Dial the national emergency number and press 'send'. Explain exactly where you are and don't hang up until help has arrived.

- Working Temperature
- The working temperature for the phone is between 0 Degree and 40 Degree Celsius. Please don't use the phone outside the range. Using the phone under too high or too low temperature might cause problems.

At very high volume, prolonged listening to a mobile phone can damage your hearing.

Your device is a product of superior design and craftsmanship and should be handled with care: The following suggestions will help you protect your phone:

- Always keep the small parts of the phone away from children.

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will rust electronic circuits. If your device does get wet, remove the battery, and allow the device to dry completely before replacing it.

- Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can be damaged.

- Do not store the device in high or cold temperature. High temperatures can shorten the life of electronic devices and damage batteries.

- Do not attempt to open the device other than as instructed in this guide.

- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.

- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device. Only use a soft, clean, dry cloth to clean the surface of the device.

- Do not paint the device. Paint can clog the moving parts and prevent proper operation.

- Use indoor chargers.

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Important: Changes or modifications to this product not authorized by Hunan ChenRui Communication Technology Co., Ltd could void the electromagnetic compatibility (EMC) and wireless

compliance and negate your authority to operate the product.

This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices.

SAR Statement: This Mobile Phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: DL501 (FCC ID: 2ARG5-DIGICELDL501) has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

Body-worn Operation
This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
