KONNECT™

User Manual

The KONNECT is the ultimate
in-helmet audio headphone solution.

To ensure optimal audio quality, please take
the time to position the KONNECT
headphone properly inside your helmet.

You can reuse the package foam insert to
better hold and position the headphone
within your helmet ear pockets.

BUTTON OPERATIONS

CENTER	Play / Pause Music	Short press to start and stop music
	Voice commands	Very Long press to start Voice Command
	Answer a call	Short press during incoming call
	Hang up a call	Short press during a call
LEFT (-)	Volume down	Short press when playing music or on a call
	Previous song	Long press when playing music
	Microphone mute	Long press during a call to mute/unmute
	Reject a call	Long press during incoming call
RIGHT (+)	Volume up	Short press when playing music or on a call
	Next song	Long press when playing music
	Power on	Short press to power on
	Enter Pairing Mode	Long press to power on & enter pairing
	Power off	Very Long press to power off
LEFT & RIGHT	Reset Pairings	Very Long press to reset Bluetooth pairings

3 buttons on the Left Speaker control the **KONNECT** headphone operations.

For improved button access, we recommend the **3BR** (sold separately)

The **3BR** conveniently extends the 3 buttons and USB charge port to the exterior of your helmet.

BLUETOOTH PAIRING

When KONNECT is powered down, power up the device by pressing the RIGHT (+) button, but continue to hold the button for a longer period. When entering pairing mode, LED will flash rapidly. On your smartphone Bluetooth settings, search in the listing for "KONNECT", and initiate pairing. The LED will now flash at a slower rate.

CHARGING

Please charge the KONNECT when voice announces that battery is low. Charge via the micro-USB port.
Charging time is about 3-4 hours. When KONNECT headphone is not in use, please charge at least once every 2 months.
