General Introduction

The Saramonic Blink500 Pro is an incredibly lightweight, ultracompact and easy-to-use 2-person wireless microphone system, and delivers an exceptional, broadcast-quality sound for DSLR, Mirrorless and Video cameras, mobile devices, and much more.

Includes the Blink500 Pro Charging Box, it allows you to charge devices anywhere you need. This box provides the charging power for transmitter and receiver, and it's rechargeable via a USB-C port in low battery level.

3.5mm headphone output, selectable M/S switch, quick-charging, OLED display on TX, quick-charging TX features make the recording process more quicker to focus.

The system series is comprised of three different receivers. The RX receiver has a 3.5mm output and includes TRS and TRRS output cables, allowing it to work with any device with a 3.5mm audio input. The RXDi receiver has a MFi Certified Lightning output and is designed for Apple iOS devices. And the RXUC receiver has a USB-C output and is designed for devices with a USB-C port, including Android smartphones and tablets.

The clip-on transmitter has a great sounding built-in mic and it is small and light enough to clip to shirts and clothing, or you can use it as a traditional beltpack transmitter with the included SR-M1 professional lavalier microphone.

No technical knowledge of audio is required to operate. The Blink500 Pro system operates on the interference-free 2.4GHz spectrum and automatically hops to free channels to avoid static noise and audio dropouts.

概述

Saramonic Blink500 Pro 是迷你双通道无线麦克风系统。输送广播级音质，适用于单反、无反相机、摄像机以及其他移动设备。本系统分别有 RX/RXDi/RXUC 三款接收器系列。

包括 Blink500 Pro 充电盒，它允许你在任何需要的地方给设备充电。充电盒为发射器和接收器提供充电电源，低电量时可通过 USB-C 接口充电。

3.5mm 耳机输出，可选择的 M/S 开关，自带 OLED 屏幕（发射器）快速充电功能，让您快速聚焦于您的录音对象。

RX 是 3.5mm TRS 接收器，配置 TRS 和 TRRS 输出线，用于 3.5mm TRS 和 TRRS 接口设备。

RXDi 为通过 MFi 认证 Lightning 接收器，用于 iOS 系统的 Lightning 接口设备。RXUC 为 Type-C 接收器，用于安卓以及其他 Type-C 接口设备。

背夹式发射器有内置麦克风，能够收录优质的音质效果，轻便小巧的外形可以夹在衣服上使用。您也可以把它当成传统的腰包发射器，搭配套装内提供的 SR-M1 领夹麦使用。无需专业知识即可操作使用。Blink500 系统所使用的是抗干扰 2.4GHz 频段，遇到干扰情况下能自动跳转频道避免噪音产生以及音频失真。

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
