

PS4 wireless controller use instruction

This is a Bluetooth controller applied to PS4 hosts. The Bluetooth controller has an online distance of over 10MM, equipped with a 6-axis functional sensor, capacitive touch function, built-in speaker, and can be connected to 3.5MM headphones and microphones.

The charging box of the controller can be connected to the host through USB cable, and the host can also be awakened through Bluetooth. After long pressing the PS button on the controller to turn it on, short press to connect to the host.

The Share, Option, L1, L2, L3, R1, R2, R3 and other buttons are command keys in the game. The RGB light on the handle is the channel indicator light, which is distinguished by different colors for different users on the host.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
