

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	
EUT Housing and Board View 2	

EUT Housing and Board View 2	
Solder Board-Component View 1	

Solder Board-Component View 2	 A photograph of a small, green printed circuit board (PCB) component, likely a solder mask or a small board, placed on a blue textured surface. The component is rectangular with a yellowish-gold solder mask on one side. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with markings from 0 to 100 mm visible.
Solder Board-Component View 3	 A photograph of a larger, green printed circuit board (PCB) component, likely a solder mask or a small board, placed on a blue textured surface. The component is rectangular with a yellowish-gold solder mask on one side. It is positioned next to a black ruler with white markings, showing dimensions in millimeters. The ruler is oriented vertically, with markings from 0 to 100 mm visible.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 4'. The board is L-shaped and features a large silver heat spreader on the left side, a yellow component in the center, and a black connector at the top. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 10 to 100 mm.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 5'. This view shows the underside of the board, revealing various electronic components, including a large black integrated circuit (IC) and several smaller components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 10 to 100 mm.

Solder Board-Component View 6	 A photograph of a green printed circuit board (PCB) component, likely a baseband or antenna module, resting on a blue textured surface. The component is irregularly shaped with various electronic components, including a SIM card slot labeled 'SIM1', a USB port, and several integrated circuits. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (mm) from 0 to 100.
Antenna View	 A photograph showing the back of a black mobile phone with its battery cover removed, revealing the internal battery and antenna components. The battery is a white rectangular unit with the 'wölki' logo and technical specifications: 'Model: W926 LITE', '2500mAh/3.8V 9.5Wh', 'Charging Voltage: Limited 4.35V', and 'Production Date: 20.12.07'. Two red rectangular boxes with leader lines point to specific areas: one at the top right corner labeled 'WIFI/BT/GPS Ant.' and another at the bottom center labeled 'GSM/WCDMA Ant.'. A black ruler with white markings is placed horizontally below the phone, showing measurements in millimeters (mm) from 0 to 100.
