| <p>EUT View 3</p> |  A photograph showing the back of a silver smartphone. The phone is positioned vertically on a blue textured surface. A black ruler with white markings is placed horizontally below the phone, showing measurements in millimeters. The phone's back features a vertical camera module on the left side, a fingerprint sensor in the center, and the 'wolki' logo at the bottom. The ruler shows the phone is approximately 150 mm high. |
| <p>EUT View 4</p> |  A photograph showing the bottom of the same silver smartphone. The phone is positioned vertically on a blue textured surface. A black ruler with white markings is placed horizontally below the phone, showing measurements in millimeters. The phone's bottom edge shows the charging port and speaker grilles. The ruler shows the phone is approximately 150 mm high.                                                               |

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>EUT View 5</p> |  A photograph showing the back of a silver smartphone lying on a blue surface. A black ruler with white markings is placed horizontally below the phone. The phone's back features a circular fingerprint sensor in the center and a vertical camera module on the right side with two lenses and a flash. The ruler shows measurements in millimeters, with the phone's width spanning approximately 150mm. |
| <p>EUT View 6</p> |  A photograph showing the back of the same silver smartphone from a slightly different angle, still on the blue surface with the ruler. The camera module is more prominent in this view, showing the two lenses and the flash. The ruler is positioned below the phone, showing its width is about 150mm.                                                                                                  |
