

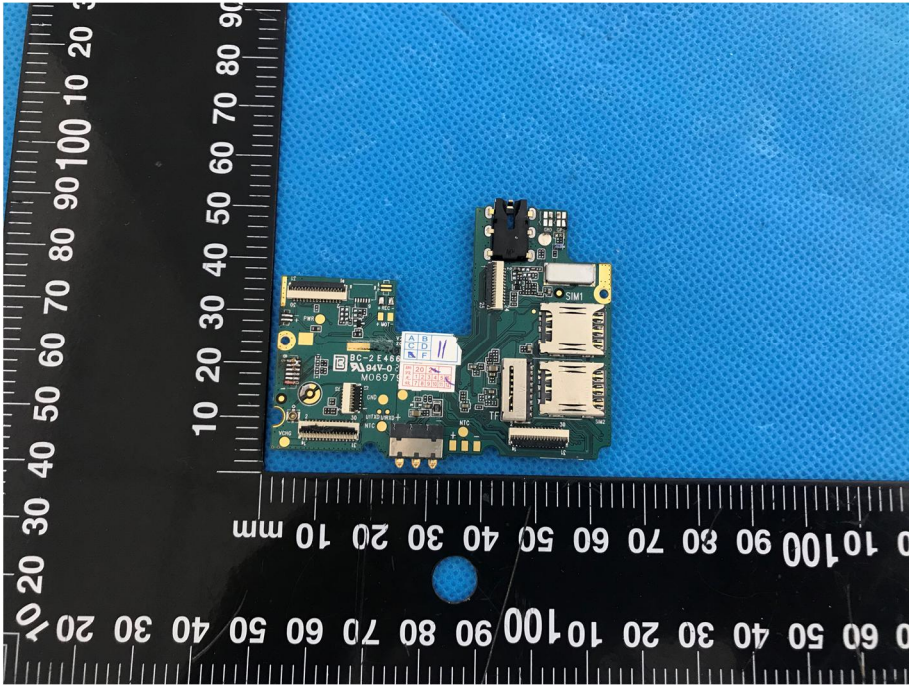

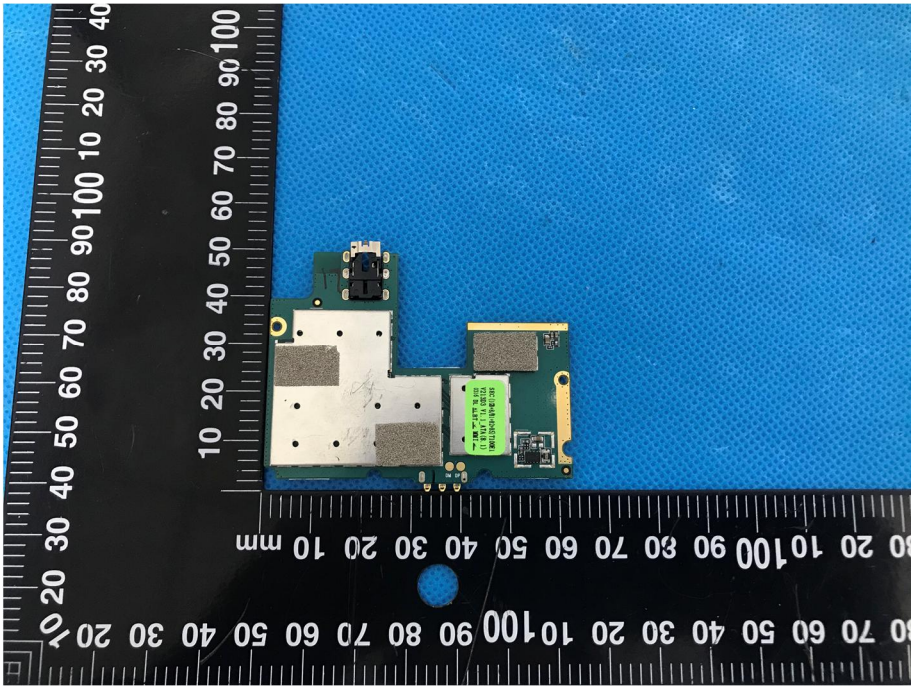

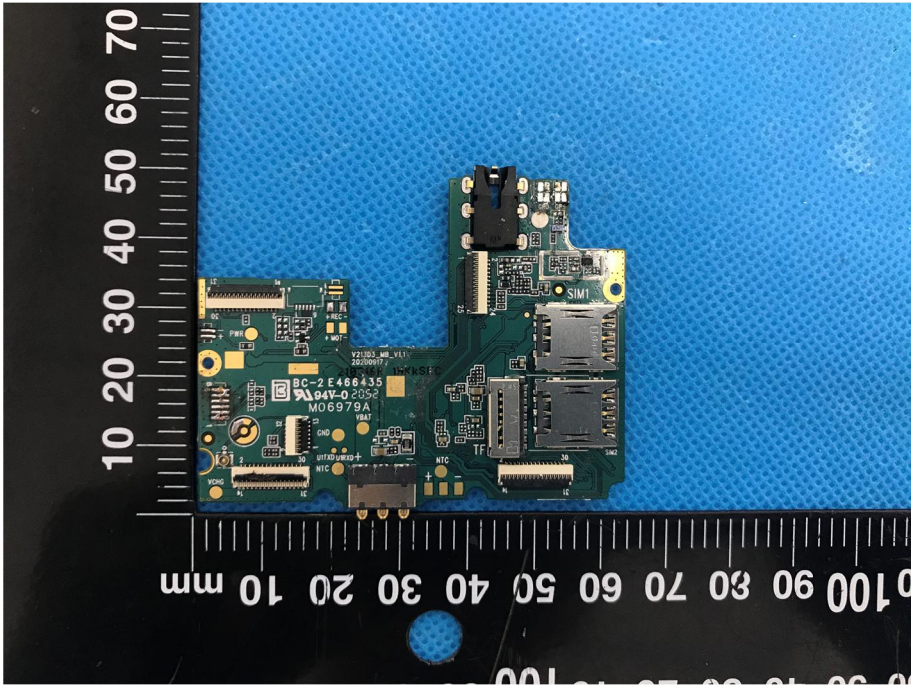

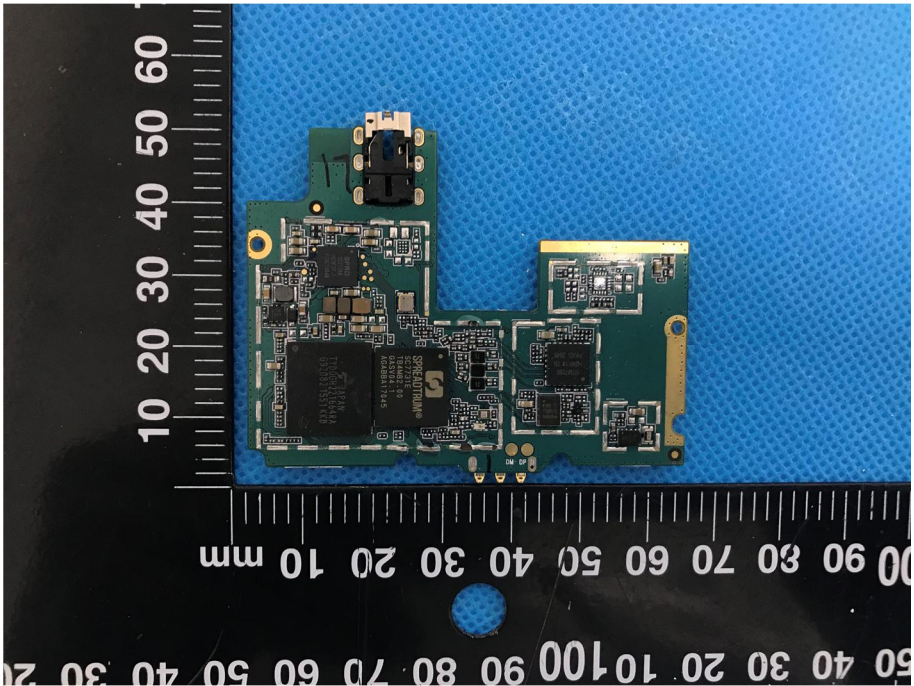

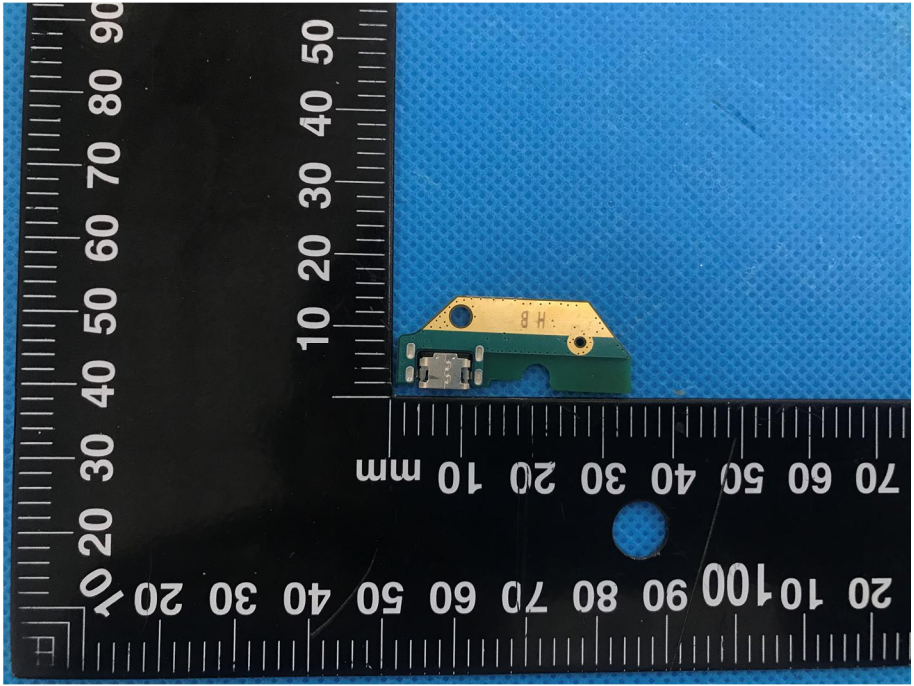

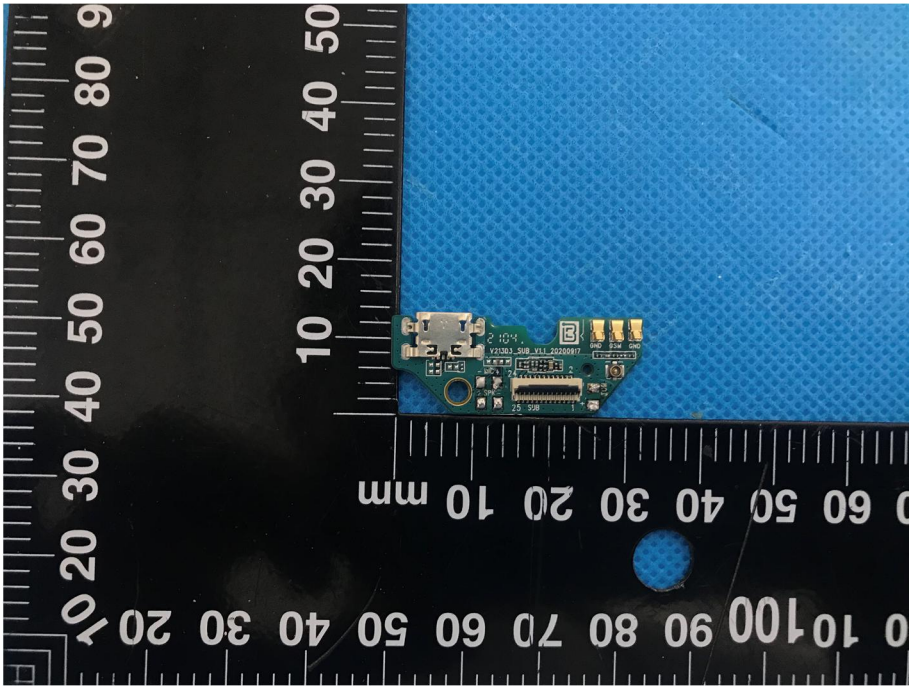

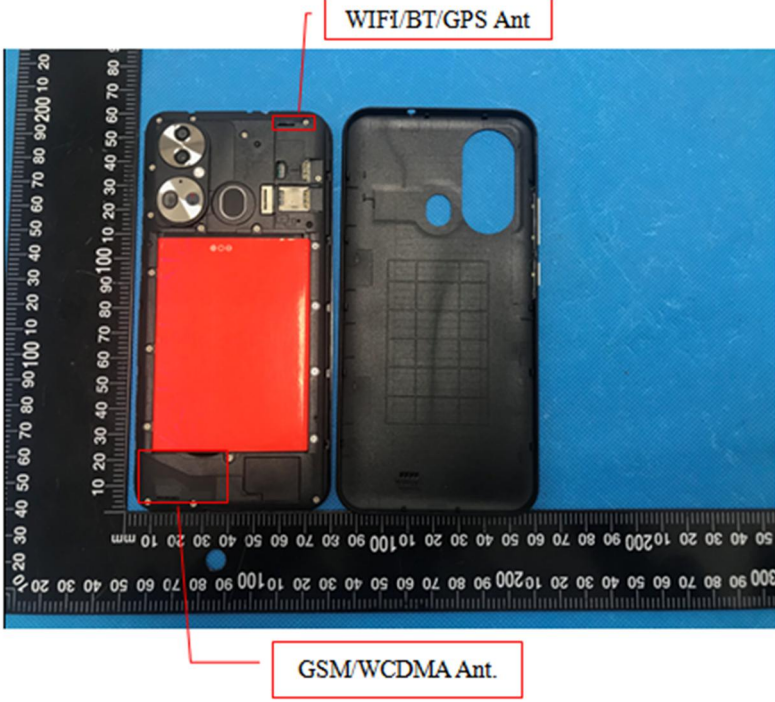

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	
<p>EUT Housing and Board View 2</p>	

<p>EUT Housing and Board View 3</p>	 <p>A photograph showing the EUT housing and board assembly. On the left is the assembled unit with a black screen. On the right is the black plastic housing. A black ruler with white markings is placed vertically to the left of the components for scale. The ruler shows markings from 0 to 100 mm on both the left and right sides.</p>
<p>Solder Board-Component View 1</p>	 <p>A close-up photograph of the solder board component. The board is green and populated with various electronic components, including a SIM card slot labeled 'SIM1' and a micro-USB port. A black ruler with white markings is placed vertically to the left of the board for scale. The ruler shows markings from 0 to 100 mm on both the left and right sides.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph showing a small green printed circuit board (PCB) component with various electronic components and solder joints. The component is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom, providing a scale in millimeters. The ruler markings on the left range from 0 to 100 mm, and on the bottom from 0 to 100 mm.</p>
<p style="text-align: center;">Solder Board-Component View 3</p>	 <p>A photograph showing a larger green PCB component with various electronic components, including a SIM card slot and a TF card slot. The component is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom, providing a scale in millimeters. The ruler markings on the left range from 0 to 70 mm, and on the bottom from 0 to 100 mm. Text on the PCB includes "BC-2 E466435", "94V-0 2052", "M06979A", "SIM1", "TF", "NTC", "V21213_00_V11", and "20200917".</p>

<p>Solder Board-Component View 4</p>	 <p>A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 4'. The component is rectangular with several integrated circuits and surface components. It is placed on a blue textured surface. A black ruler with white markings is positioned to the left and bottom of the component for scale. The ruler shows measurements in millimeters, with markings from 0 to 100 mm visible. The component's length is approximately 80 mm and its width is approximately 40 mm.</p>
<p>Solder Board-Component View 5</p>	 <p>A photograph of a smaller green PCB component, labeled 'Solder Board-Component View 5'. The component is a small rectangular board with a few components and a gold-colored section. It is placed on a blue textured surface. A black ruler with white markings is positioned to the left and bottom of the component for scale. The ruler shows measurements in millimeters, with markings from 0 to 100 mm visible. The component's length is approximately 20 mm and its width is approximately 10 mm.</p>

<p style="text-align: center;">Solder Board-Component View 6</p>	 <p>A photograph of a small green printed circuit board (PCB) component, likely an antenna, resting on a blue textured surface. The component features several gold-plated contacts and a connector. A black ruler with white markings is placed below the component for scale, showing measurements in millimeters.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph showing the internal chassis of a mobile phone with the back cover removed. Two antenna locations are highlighted with red boxes and labeled with red lines. The top label is "WIFI/BT/GPS Ant" and the bottom label is "GSM/WCDMA Ant.". A black ruler with white markings is placed to the left of the chassis for scale.</p>
