Product

- Excellent design and quality of products
- 4.2 inch large size white LED time display, brightness can be automatically
- adjusted according to the environment brightness, or can completely turn off the unique design of bilateral indirect amber light to the light sensitive, can adjust the brightness between 1-10 levels, provide you with soft and warm lighting
- Two sets of separate alarm clocks, equipped with six kinds of natural sound
- wake-up, and the alarm clock can be adjusted according to the working day and rest day to repeat the cycle of soft lights and professional white noise sleep, the end of sleep can automatically turn off the sound and lights
- Time format supports 12/24 H ,12 H, screen
-

display AM/PM network time, time zone and
daylight saving time
- Voice and APP control alarm clocks, sleepers and lights

FCC Statment

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Warning Statements:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

Product

| Model	SNA006-S
Size	200×85×97.6 mm
Weight	About g 405
Color	Black
Material	ABS+PC、 silica gel, metal
Control mode	keystroke control, APP control, voice control (link third party smart audio)
Input	Micro USB adapter 5 V 2A
Output	USB A output 5 V 1A
Power	10W (MAX)
Speaker	Ω 3W 4
Packing List	Smart night light alarm clock, manual, adapter (optional), charging line (optional)
Product certification	FC CE RoHS ♻

Operation

setting

APP functional operations

Take "alarm clock 1" as an example:

1. can switch all alarm clocks directly on the main page.

2. Click on the "alarm clock 1" area to enter the "alarm clock 1 settings "page, you can set the alarm clock" alarm clock time "," name "," repeat "," alarm sound effect "," noise sound effect "," noise time "," volume "," sleep "and other alarm clock function parameters.

3. Click Save in the upper right corner to exit the current settings page and keep

the current settings.

1. device connection failed?

Please put routers, devices and mobile phones in the same area, as close as possible;

Please confirm that the connected Wi-Fi signal is normal ;(support 2.4 GHz Wi-Fi network only)

3 Please press the Wi-Fi button to re-enter the network mode, try again to connect the distribution network.

2. Bluetooth device can not connect?

Please make sure the Bluetooth is on;

Please confirm that the device is bound to other Bluetooth devices

3.APP suddenly can't control the equipment?

Could be a network cause or the device is offline

Please confirm that the equipment is energized;

Please confirm that the connected Wi-Fi signal is normal ;(only support 2.4 GHz Wi-Fi network) it is recommended that you keep APP open for about 3 minutes to see if the device is still in normal online state;

If you are still online, put your phone next to the device and connect to the same Wi-Fi, as the device. Try opening the page to see if it is smooth to determine the network.

Exit the phone's background application, open it again and try again.

4. how to reset Wi-Fi?

Press the "Wi-Fi distribution network button until the display area Wi-Fi icon flashes, the reset Wi-Fi is successful; if not, the device is completely powered off and retry.

* Reset Wi-Fi removes the bound device and clears the previous parameter settings.

5. in the hot distribution network (compatible mode) did not find SmarLife-xxxx how to do?

Turn on mobile location, Bluetooth and Wi-F (i only support 2.4 G);

Try to automatically discover or manually add a re-distribution network.

6. device status can not be synchronized with the display status on the APP?

Please confirm that the equipment is connected;

When using the APP operating device, check that the device status is synchronized with the display status on the APP.

After the 7. device is connected, it can be controlled in the same place, but the mobile phone can not be remotely controlled by changing another address or other network?

If the device encounters such a situation, it is possible that the device and mobile phone are connected to the same LAN, but not to the network.

Please put the phone next to the device, then connect to the same device Wi-Fi, try to open the web page to see if the process, to determine whether the Wi-Fi signal is normal;

If you can not access the network, it is recommended to restart the router.

Be careful

Please use this product correctly according to the instructions, it is strictly forbidden to disassemble and collide this product;

please place the product on a stable

horizontal and non-smooth surface; please no

longer use in rooms with temperatures below

0° or above 40°;

Do not use in high temperature, wet, corrosive environment

to avoid leakage caused by circuit damage; please keep it

properly, do not let children use electrical appliances as

toys to avoid accidents;

This product does not prevent fire, do not throw into the fire, do not close to the source of fire;

This product is not waterproof, do not put into the water, lest cause equipment damage.

Equipment

Please use soft cloth to wipe this product;

Do not use abrasive cleaning agents, rough chemicals, alcohol, acetone

cleaning, acetone cleaning agent, etc., so as not to damage the surface of

the product; store the product in a safe, dry place without being

overstocked, bruised or damaged;
