

<p style="text-align: center;">Solder Board-Component View 8</p>	 <p>A photograph showing a small, rectangular, orange-colored component mounted on a blue perforated solder mask. The component is positioned on a black surface with a white ruler for scale. The ruler shows markings in millimeters, with the component's length being approximately 25 mm and its width approximately 10 mm. The component has two small circular solder points on its surface.</p>
<p style="text-align: center;">Solder Board-Component View 9</p>	 <p>A photograph showing a yellow rectangular battery component mounted on a blue perforated solder mask. The battery is connected to a white cable with red, white, and black wires. The component is positioned on a black surface with a white ruler for scale. The ruler shows markings in millimeters, with the battery's length being approximately 40 mm and its width approximately 15 mm. The battery has the following text printed on it: "+ H 602535 3.7V" and "- 500mAh 200928".</p>
