| <p><b>EUT Housing and Board</b><br/><b>View 3</b></p>             |  A photograph showing the grey plastic housing and a green printed circuit board (PCB) of an Electronic Under Test (EUT). The housing is positioned above the PCB. A black ruler with white markings is placed vertically to the left of the components for scale. The background is a blue textured surface.  |
| <p><b>Solder</b><br/><b>Board-Component View</b><br/><b>1</b></p> |  A close-up photograph of a yellow battery component mounted on a green PCB. The battery has two wires (red and black) extending from it. A white connector is visible at the top. A black ruler with white markings is placed horizontally below the battery for scale. The background is a blue textured surface. The battery label includes the text: "+ M 602535 3.7V" and "- 500mAh 200917". |

| <p style="text-align: center;"><b>Solder<br/>Board-Component View<br/>2</b></p> |  <p>A photograph of a green PCB component on a blue background. A black ruler is placed vertically on the left and horizontally at the bottom for scale. The component is populated with various components, including several surface-mount capacitors labeled A, B, C, D, X, Y, and CR. A USB connector is visible at the top. Printed text on the board includes 'AZ-VS-N64 RF-0918A', 'REV:A', '2020-09-18', and '3920'.</p> |
| <p style="text-align: center;"><b>Solder<br/>Board-Component View<br/>3</b></p> |  <p>A photograph of the same green PCB component from a different perspective. A white rectangular box highlights a specific area on the board, likely for inspection or measurement. The ruler and blue background are consistent with the previous view.</p>  |
