User Manual

This device is made for custom re-branding. The operation of the device is predefined but the creation of an end user manual is left to the entity re-branding the device. The device data sheet describes how to operate and interact with the device.

FCC COMPLIANCE STATEMENT

CAUTION: Changes or modifications not expressly approved could void your authority to use this equipment.

This device complies with Part 15 of the FCC Rules. Operation to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
