## Safety information

## Important

This equipment is not designed to make emergency telephone calls when the power fails. Alternative arrangements should be made for access to emergency services.
This product is intended for connection to analogue public switched telephone networks and private switchboards in the US.

## Important safety instructions

Follow these safety precautions when using your phone to reduce the risk of fire, electric shock, and injury to persons or property:

- Keep all slits and openings of the phone unblocked. Do not set the phone on a heating register or over a radiator. Ensure that proper ventilation is provided at the installation site.
- Do not use while wet or while standing in water.
- Do not use this product near water (for example, near a bath tub, kitchen sink, or swimming pool).
- Do not allow anything to rest on the power cord. Place the power cord so that it will not be walked on.
- Never insert objects of any kind into the product vents as that may result in fire or electric shock.
- Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.
- Do not disassemble this product. If service or repair work is required, contact the customer service helpline found in this user's Guide.
- Do not overload wall outlets and extension cords.
- Avoid using during an electrical storm. Use a surge protector to protect the equipment.
- Do not use this phone to report a gas leak, especially if you are in the vicinity of the gas line.
- For pluggable equipment, the socket-outlet (power adaptor) shall be installed near the equipment and shall be easily accessible.

## Save these instructions

## Important

To reduce the risk of fire, use only the supplied AC power adaptor.

## Unplug this cordless phone immediately from an outlet if:

- The power cord or plug is damaged or frayed.
- Liquid has been spilled on the product.
- The product has been exposed to rain or water. Do not retrieve the handset or base until after you have unplugged the power and phone from the wall. Then retrieve the unit by the unplugged cords.
- The product has been dropped or the cabinet has been damaged.
- The product exhibits a distinct change in performance.

## Installation Guidelines

- Read and understand all instructions and save them for future reference.
- Follow all warnings and instructions marked on the product.
- Do not install this product near a bath tub, sink, or shower.
- Operate this phone using only the power source that is indicated on the marking label. If you are unsure of the power supply to your home, consult with your dealer or local power company.
- Do not place this product on an unstable cart, stand, or table. This product may fall, causing serious damage to the product.
- Adjust only those controls that are covered by the operating instructions. Improper adjustment of other controls may result in damage and will often require extensive work to restore the product to normal operation.
- Clean this product with a soft, damp cloth. Do not use chemicals or cleaning agents to clean this phone.
- Use only the power supply that came with this unit. Using other power supplies may damage the unit.
- Because this phone operates on electricity, you should have at least one phone in your home that could operate without electricity in the case the power in your home goes out.
- To avoid interference to nearby appliances, do not place the base of the phone on or near a TV, microwave oven, or VCR.

## Battery Safety Instructions

- Do not burn, disassemble, mutilate, or puncture the battery. The battery contains toxic materials that could be released, resulting in injury.

## Important

Warning! Use only the approved rechargeable Ni-MH battery cells ( $2 \times 1.2 \mathrm{VDC}$ AAA size 550 mAh Ni-MH rechargeable batteries) supplied with your CD4011, CD4012, CD4013 or CD4O14.

## Caution

There is a risk of explosion if you replace the battery with an incorrect battery type. Use only the batteries that came with your phone or an authorized replacement recommended by the manufacturer.

- Keep batteries out of the reach of children.
- Remove batteries if storing over 30 days.
- Do not dispose of batteries in fire, which could result in explosion.
- The rechargeable batteries that power this product must be disposed of properly and may need to be recycled. Refer to your battery's label for battery type. Contact your local recycling center for proper disposal methods.

## Save these instructions

## Welcome...

## to your new Motorola CD4 Digital Cordless Telephone with Answering Machine!

- Block anonymous calls or block 10 numbers added to the block call list. ${ }^{1}$
- Answer machine with up to 12 minutes digital recording time.
- All handsets fully cordless for locating anywhere within range.
- 50 name and number phonebook.
- Bright backlit display.
- Speakerphone for hands-free conversations.
- Caller ID shows you who's calling and see details of the last 20 callers in a Calls list. ${ }^{1}$
- Redial up to 10 of the last numbers called.
- Register up to 4 handsets to a single base.
- Make internal calls, transfer external calls, hold 3-way conversations between two internal callers and an external caller.
- Intelligent Charging saving unnecessary power usage.

## Need help?

If you have any problems setting up or using your CD4, please contact Customer Services on 1-833-468-1468.

Alternatively, you may find the answer in the 'Help' section at the back of this guide.
'You must subscribe to your network provider's Caller ID service for this feature to work. A subscription fee may be payable.

Please Note that this equipment is not designed for making emergency telephone calls when the power fails. Alternative arrangements should be made for access to emergency services.

# This User Guide provides you with all the information you need to get the most from your phone. 

## Before you make your first call you will need to set up your phone. Follow the simple instructions in 'Getting started', on the next few pages.

Important
Only use the telephone line cord supplied.
Got everything?

- Cordless handset
- Base
- AC power adaptor for the base
- Telephone line cord
- $2 \times$ rechargeable Ni-MH battery cells

If you have purchased an CD4 multiple pack you will also have the following additional items:

- Cordless handset \& charger cradle
- AC power adaptor for the charger cradle
- $2 \times$ rechargeable Ni-MH battery cells

## 1. Getting started

## Location

## Important

Do not place your CD4 in the bathroom or other humid areas.
Place your CD4 base within reach of the AC power outlet and telephone wall jack. The socket-outlet should be installed near the equipment and should be easily accessible.

Make sure it is at least 1 meter away from other electrical appliances to avoid interference. Your CD4 works by sending radio signals between the handset and base. The strength of the signal depends on where you place the base. Putting it as high as possible ensures the best signal.

## Handset range

The unit has a range of up to 300 meters outdoors when there is a clear line of sight between the base and handset. Any obstruction between the base and handset will reduce the range significantly. With the base indoors and the handset either indoors or outdoors, the range will normally be up to 50 meters. Thick concrete and stone walls can severely affect the range.

## Signal strength

il on your handset indicates that you are within range of the base. When out of range of the base, il disappears. If you are on a call, you will hear a warning beep.
If you are on a call, the line will hang up if the handset moves out of range of the base. Move back within range. The handset will automatically re-connect to the base.

## Setting up

## Important

The base station must be plugged into the AC power at all times. Use only the AC power adaptor and telephone line cord supplied with the product.

## Connecting the base

1. Plug the telephone line cord into the socket marked $\mathcal{L}_{\text {Line }}$ on the underside of the base and the other end of the line cord into the telephone line wall jack.
2. Plug the $A C$ power jack into the socket marked $\mathbb{Z}$ on the underside of the base and plug the AC adaptor into the AC power outlet. Switch on the AC power.

## Installing and charging the handset

1. Remove the battery cover from the back of the handset by placing your finger in the groove at the bottom of the handset and lifting the cover up to release, insert the $2 \times \mathrm{AAA} \mathrm{Ni}-\mathrm{MH}$ rechargeable batteries supplied. Please note the '+' and '-' markings inside the battery compartment and insert in the correct direction.

To open: To close:

2．Clip the battery cover back into place．
3．When charging the battery pack for the first time，place the handset on the base to charge for at least 16 hours continuously．
4．When the handset is fully charged，而 will appear steadily on the display． Plug the other end of the telephone line cord（make sure that one end is already plugged into the base）into the telephone wall socket．

## Connecting the handset and charger cradle （for multi－pack only）

If you have purchased a multiple pack，you will need to carry out this process for all the handsets and charger cradles．

1．Plug the AC power jack into the socket marked $\boldsymbol{G}$ on the underside of the charger cradle and plug the power adaptor into the AC power outlet．

2．Remove the battery cover from the back of the handset by placing your finger in the groove at the bottom of the handset and lifting the cover up to release，then insert the $2 \times \mathrm{AAA} \mathrm{Ni}-\mathrm{MH}$ rechargeable batteries supplied． Please note the＇+ ＇and＇－＇markings inside the battery compartment and insert in the correct direction．
3．Clip the battery cover back into place．
4．When charging the battery pack for the first time，place the handset on the charger cradle to charge for at least 16 hours continuously．
5．When the handset is fully charged，县 will appear steadily on the display． The display will show the time and the date on the screen，to indicate that it is registered to the base．

## Battery low warning

If flashes on the display and there is a warning beep every 2 minutes during a call，recharge the handset before using it again．When charging，面 will scroll on the display．

## Battery performance

In ideal conditions, fully charged batteries should give up to 10 hours talk time or up to 200 hours standby time on a single charge. ${ }^{1}$
Note that new batteries do not reach their full capacity until they have been put to normal use for several days.
To keep your batteries in the best condition, leave the handset off the base for a few hours at a time.
Running the batteries right down at least once a week will help them last as long as possible.
The charge capacity of the rechargeable battery will reduce with time as it wears out, giving the handset less talk / standby time. Eventually it will need to be replaced.
After charging your handset for the first time, subsequent charging time is about 6-8 hours a day. Batteries and the handset may become warm during charging. This is normal.

## Important

When fully charged batteries are removed and re-inserted, or the handset is powered off and on, the battery icon on the display will reduce to 1 bar. The battery is still fully charged and the handset can be used as normal. If you charge the handset again by replacing it on the base unit, it will usually show fully charged after 10 minutes (this time will be dependent on the battery capacity). This is normal behaviour and is a reminder to charge the handset to prevents calls being dropped.
${ }^{1}$ All talk and standby times are approximate and depend on features selected and usage pattern.

## Date and time

If you have subscribed to a Caller ID Service and Auto Clock is set to on (see page 29), the date and time is set automatically for all handsets when you receive your first call. If Auto Clock is set to off the time and date does not set automatically.
If you do not have a Caller ID service, you can set the date and time manually.

1. Press ${ }_{o k}^{\text {MeNU }}$, scroll ${ }^{\text {W. }}$ to Clock/Alarm and press $\begin{gathered}\text { MENU }\end{gathered}$
2. Date \& time is displayed. Press $\begin{gathered}\text { Menv } \\ \text { ok }\end{gathered}$.
3. Enter the date using the format MM-DD-YY e.g. 08/27/19 for 27 August 2019 and press $\begin{gathered}\text { Menv } \\ \text { OK }\end{gathered}$.
 press ${ }^{\text {Mon }}$.
4. Press © to return to standby.

## Your CD4 is now ready for use.

## 2. Getting to know your phone

## Overview of your handset

A Earpiece

## B Display

See page 14 for display icons.

## C Call Block

Press to enter the call block menu.
D Menu / OK
Enter the main menu.
Select the option displayed on screen.
Confirm menu option.

## E Hands-free key

Activate and deactivate hands-free during a call.

## Important

Hands-free activation can suddenly increase the volume in the earpiece to a very high level. Make sure the handset is not too close to your ear.

## F Talk / Flash

Make or answer a call.
Use flash (F) functions.

## G Phonebook / Scroll Down / Volume down

Open the phonebook list.
Scroll down through lists and menus.
Decrease the earpiece or hands-free volume during a call.
H Voicemail
Press and hold to dial voicemail.
I */Intercom
Dial a *.
Press and hold to make an internal call.
J Clear / Mute / Back

## 3. Using the phone

### 3.1 Switch the handset on / off

1. Press and hold $\overparen{\odot}$ to switch the handset off.
2. Press $\widehat{\odot}$ to switch the handset on.

### 3.2 Calls

### 3.2.1 Make a call

1. Press ${ }^{\text {nem }}$.
2. Dial the number.

### 3.2.2 Preparatory dialling

1. Dial the number first. If you make a mistake press ${ }_{\text {BACK }}^{\text {MUTE }}$ to delete the last digit.
2. Press ${ }^{\text {nen }}$ to dial.

### 3.2.3 End a call

1. Press $\bar{\circ}$, or place the handset back on the base or charger cradle.

## Note

If Auto hang up is switched off you will need to press $\boldsymbol{\sigma}^{\circ}$ to end a call.

### 3.2.4 Receive a call

When you receive an external call, the phone rings and flashes on the display.

1. Press " ${ }^{\text {nen }}$ to answer the call.

## Note

If Auto answer is switched on you can simply lift the handset to answer a call.

### 3.3 Adjust the earpiece / hands-free volume

During a call, press sity or to increase or decrease the volume. There are 5 levels to choose from.

### 3.4 Mute

You can mute your handset so that you can talk to someone nearby without your caller hearing.

1. During a call, press ${ }_{\text {BACK }}^{\text {MuTE }}$. The display shows Mute on and your caller cannot hear you.
2. Press ${ }_{\text {BACK }}^{\text {MUTE }}$ again to resume your call.

## 3．5 Intercom

## 3．5．1 Make an internal call

If more than one handset is registered to the base，internal calls can be made between two handsets．（ flashes and the display shows the handset number you are calling．
1．If only 2 handsets are registered to the base，press and hold $*_{\text {Int }}$ and the other handset rings automatically．
2．If more than 2 handset are registered to the base press and hold $*_{\text {int }}$ and scroll 罗 to the handset that is to be called and press ${ }^{\text {nem }}$ ．

## 3．5．2 Receive an internal call

When you receive an internal call， $\mathbf{C}$ flashes and the handset number that is calling you is displayed．
1．Press ${ }_{\sim}^{n e n}$ to answer the call．

## 3．5．3 Transfer a call

You can transfer an external call to another handset registered to the base．

## During an external call：

1．If only 2 handsets are registered to the base，press and hold $*_{\text {int }}$ and the other handset rings automatically．
2．If more than 2 handset are registered to the base press and hold $*_{\text {int }}$ and scroll 罚 to the handset that is to be called and press MENU．

3．When the other handset answers，press © to complete the transfer．

## Note

Your external call resumes automatically after 1 minute if there is no answer．

## 3．5．4 3－way conference call

You can hold a 3－way conference call between 2 internal callers and 1 external caller．

## During a call with an external caller：

1．If only 2 handsets are registered to the base，press and hold $*_{\text {int }}$ and the other handset rings automatically．
2．If more than 2 handset are registered to the base press and hold $*_{\text {Int }}$ and scroll 䍓 to the handset that is to join the call and press MeNu．
3．When the other handset answers，press $\begin{gathered}\text { MENU } \\ \text { ond }\end{gathered}$ to connect all three callers to begin the conference call．

4．Press $\widetilde{\circ}$ to end the call．

### 3.6 Hands-free

To talk to the caller without holding the handset and for other people in the room to listen to the conversation over the loudspeaker simply use the handsfree function.

### 3.6.1 Make a hands-free call

1. Dial the number and then press $\square$ ㅇ.
2. Press $\bar{\circ}$ to end the call.

### 3.6.2 Answer a call hands-free

Press $\mathfrak{W}$ to answer the call in hands-free.

## Note

Press 1 to switch the call between the earpiece and the loudspeaker.

### 3.7 Redial

The last 10 entries dialled are stored in the redial list.

### 3.7.1 View or dial an entry

1. Press (REDLL to open the Redial list.

2. Press ${ }^{\text {nen }}$ to dial the displayed entry or press $\overline{\text { © }}$ to return to standby.

### 3.7.2 Copy a Redial list number to the phonebook

1. Press (REDLL to open the Redial list.

2. Press ${ }_{\mathrm{OK}}^{\mathrm{MENU}}$. The display shows Save number.
3. Press ok ${ }^{\text {Menv }}$ again. The display shows Enter name.
4. Enter the name and press ${ }_{\mathrm{Ok}}^{\mathrm{OEN}}$. The number is displayed.
5. Edit the number if necessary, then press ${ }_{o k}^{\text {menv }}$ to save.

### 3.7.3 Delete an entry

1. Press (ReDal) to open the Redial list.

2. If the entry is stored to the phonebook Delete is displayed, if not scroll Delete and press $\begin{gathered}\text { Meñ } \\ \mathrm{ok}\end{gathered}$. The display shows Confirm?
3. Press ${ }_{\text {OKK }}^{\text {MENU }}$ to confirm or $\begin{gathered}\text { MUCE } \\ \text { BCK } \\ \text { to cancel. }\end{gathered}$

### 3.7.4 Delete the entire Redial list

1. Press Rebial to open the Redial list.
2. Press ${ }_{\mathrm{OK}}^{\mathrm{ON}}$. Scroll ${ }_{\square}^{\square}$ to Delete all.
3. Press ${ }_{0}^{\text {MeNu }}$ ond again. The display shows Confirm?.
4. Press ${ }_{o k}^{\text {MENU }}$ to confirm or ${ }_{\text {BACK }}^{\text {MUTE }}$ to cancel.

### 3.8 Lock / unlock the keypad

You can lock the keypad so that it cannot be operated accidentally while carrying it around.

## Note

When the keypad is locked, you can still answer incoming calls and operate the handset as normal during the call. When the call ends, the keypad lock comes on again.

1. Press and hold $0 \cdots$.

Keys locked is displayed.
2. To unlock the keypad, press and hold $0=0$ again.

### 3.9 Paging / Find handset

You can alert a handset user that they are wanted or locate a missing handset.
Paging calls cannot be answered by a handset.

1. Press FIND on the base. All handsets registered to the base will ring.
2. To stop the ringing, press FIND on the base again or press any button on the handset.

## 4．Phonebook

You can store up to 50 names and numbers in the phonebook．Names can be up to 16 characters long and numbers up to 24 digits．

## 4．1 Store a name and number

If the phone is connected to a switchboard，you may need to enter a pause in a stored number．This gives the switchboard time to find an outside line．A pause is normally stored after the switchboard access code（e．g．9）．
When storing a number，press and hold $\#_{A_{a}}{ }^{\text {a }}$ until the display shows P．You can then continue storing the phone number．
If you have subscribed to Caller ID Service and wish to display the name of your caller as well as the number，save the full telephone number including the area code to your phonebook．
You can store multiple entries with the same name．However，to prevent unnecessary duplicated entries，you can only store the same number once．
1．Press ${ }_{\mathrm{OK}}^{\mathrm{MENU}}$ ．The display shows Phonebook．
2．Press ${ }_{\text {OKN }}^{\text {meN }}$ ．Scroll 罾 to Add new．
3．Press ${ }_{o k}^{m}$ ．evu ．The display shows Enter name．
4．Enter the name and press ${ }_{\text {OKNV }}^{\text {OENU }}$ ．The display shows Enter number．
5．Enter the number and press ${ }_{0}^{\text {Menv }}$ or to save．

## Entering names

Use the keypad letters to enter names，e．g．to store Tom：
Press 8 once to enter T．
Press 6 three times to enter o．
Press 6 once to enter $m$ ．

## Writing tips

Press ${ }_{\text {BACK }}^{\text {MUTE }}$ to delete the last character or digit．

Press $\mathbf{O}$ to insert a space．

## 4．2 View or dial an entry

1．Press 皆。

OR
Enter the first letter of the name to search alphabetically．
The first name that starts with this letter or the nearest letter in the

3．Press ${ }^{\text {nest }}$ to dial or $\bar{\sigma}$ to return to standby．

### 4.3 Edit a name and number

1. Press ${ }_{\mathrm{Ok}}^{\mathrm{M}=\mathrm{ND}}$. The display shows Phonebook.
2. Press ${ }^{\text {MENUV}}$.

 press ${ }_{\mathrm{Ok}}^{\mathrm{MENU}}$. The existing name is displayed.
3. Press ${ }_{\text {BACK }}^{\text {MUTE }}$ to delete the name if required, then enter the new name and press ${ }_{0}^{\mathrm{MEND}}$. The existing number is displayed.
4. Press ${ }_{\text {BACK }}^{\text {MUCE }}$ to delete the number if required, then enter the new number and press ${ }_{o k}^{\text {Men }}$ to save.

### 4.4 Delete an entry

1. Press ${ }_{\mathrm{Ok}}^{\text {MEND }}$. The display shows Phonebook.
2. Press ${ }^{\text {MENUN}}$.

## Note

When you are storing an phone number in the Blacklist，you will need to store the full number including the dialling code for the number to be blocked．
If you want to change／delete the blacklist number follow the first 5 steps in
7．2．3 above，and then scroll to the slot where the number is stored and press

or enter the new number and press ${ }_{\mathrm{Ok}}^{\mathrm{MEND}}$ to save．

## 7．2．4 Change the Call block PIN

1．Press ${ }_{o k}^{\text {MeNv }}$ ，scroll ${ }^{\text {Win }}$ to Advanced Set and press MENV．

3．Enter the master PIN（default setting OOOO）and press MENV．
4．Scroll ${ }^{0}$ to Change PIN．Press $\begin{gathered}\text { Menv } \\ 0\end{gathered}$
5．Enter the old PIN and press $\begin{gathered}\text { MeNu }\end{gathered}$ ．
6．Using the keypad enter the new PIN and press Menv ．
7．Re－type the new PIN and press $\begin{gathered}\text { MENU }\end{gathered}$ ．

## 7．3 Area code

The area code must be 3 digits long．
1．Press MENU，scroll ${ }_{0}^{\text {Win }}$ to Advanced Set and press Menv．
2．Scroll 毞 to Area code is displayed．Press ${ }_{o k}^{\text {Menv }}$ ．
3．Using the keypad enter the area code and press ${ }_{\mathrm{OK}}^{\text {MENU }}$ to confirm．

## 7．4 Auto prefix

You can set the phone to detect a dialling number and replace it with another number．The number to be detected can be up to 5 digits long．It can be replaced with a number up to 10 digits．

2．Scroll ${ }_{0}^{0}$ to Auto prefix，press $\mathrm{O}_{\mathrm{ok}}$ ．
3．Detect digit is displayed．Press $\begin{gathered}\text { Menv } \\ \mathrm{ok}\end{gathered}$ ．
4．Enter the number you want to be detected and press ${ }_{o c}^{\text {Menv }}$ ．
5．The display shows Prefix，press $\begin{gathered}\text { Menv } \\ \text { ond }\end{gathered}$
6. Enter the number you want it replaced with.
7. Press ${ }_{\mathrm{OK}}^{\mathrm{MENU}}$ to confirm or ${ }^{\circ}$ to return to standby.

### 7.5 Flash time

Depending on your country and network operator, your phone has the flash time set as long. It is unlikely that you need to change this setting unless advised to do so.

1. Press ${ }_{o k}^{\text {Menv }}$, scroll ${ }^{\text {W. }}$, to Advanced Set and press Menv
2. Scroll to Flash time and press Menv.

### 7.6 Dial mode

Your phone is set to tone dialling. You should only need to change this if connected to an older type of switchboard / PBX which requires pulse dialling.

2. Scroll to Dial mode and press ok

### 7.7 Switch Auto clock on / off

If you have subscribed to Caller ID Service, the date and time will be set on all your handsets whenever a call is received. This feature can be set to On or Off.

1. Press ${ }_{o k}^{\text {MENU }}$, scroll to Advanced Set and press ${ }_{\mathrm{OK}}^{\mathrm{MEND}}$.

### 7.8 Registration

Up to 4 handsets can be registered to one base station. Additional handsets must be registered to the base before you can use them.

- The instructions described below apply specifically to your handset. If you wish to register another manufacturer's handset, the instructions may vary. In this case, please refer to the manufacturer of the additional handset.
- The Master PIN is required before you can register or unregister handsets. The PIN is 0000.

### 7.8.1 Register a handset

## At the base:

1. Press and hold the find button on the base until you hear a beep. You have 120 seconds in which to register a handset.

## At the handset:

1. If the handset is not already registered to a base, press ${ }_{\text {OKKNU }}^{\text {MENU }}$.
2. Or if the handset is already registered to a base, press MEN scroll to

3. When the display shows PIN, enter the base PIN and press ${ }_{\mathrm{OK}}^{\mathrm{M}}$. When the handset registers with the base, it is assigned a handset number.

### 7.8.2 Unregister a handset

Use one handset to delete another. You cannot delete the handset that you are using.

2. Scroll ${ }^{0}$ to Unregister and press ok ${ }^{\text {Menv }}$.
3. Enter the 4 digit master PIN and press $\begin{gathered}\text { Men } \\ 0 \times 2\end{gathered}$.

Display shows the first registered handset number.
 Unregistered is displayed on the handset screen.

### 7.9 Restore default settings

You can restore your phone to its default (original) settings.
All the handsets that are registered to the base will be retained.

## Important

Resetting your phone to its default settings will delete all entries in the Redial and Calls list, but Phonebook numbers will be retained. All handset and base settings will also be reset.

2. Scroll ${ }_{\text {dio }}^{\text {at }}$ to Reset and press $\begin{gathered}\text { Menv } \\ \text { ok }\end{gathered}$.
3. Confirm? is displayed. Press $\begin{gathered}\text { Menv } \\ \text { ok }\end{gathered}$.

## 8. Caller ID and the Calls list

### 8.1 Caller ID

To use Caller ID, you must first subscribe to the service from your network provider. A subscription fee may be payable.
If you have subscribed to a Caller ID Service, you will be able to see your caller's number on your handset (provided it is not withheld) prior to answering the call. The display can show the last 16 digits or 16 characters of the phone numbers or names.
If your caller's name and number are stored in the phonebook and a number match is found, you will see the caller's name on the display as well. To ensure that the caller's name is displayed, make sure you have stored the full telephone number, including the area code in the phonebook.
If the call is an withheld call, Private will be displayed.
If the number is unavailable, Unavailable will be displayed.
If the call is from the operator, Operator will be displayed.
If the call is from a payphone, Payphone will be displayed.
If the call is from a ringback request, Ringback will be displayed.

### 8.2 Calls list

The Calls list stores details of your last 20 incoming calls, including the phone number and date and time of the call.
The Calls list also alerts you when you have unanswered calls.
The caller's details are stored in the Calls list whether or not you have answered the call. The list is shared by all handsets registered to the base. When the list is full, and a new call is received, the oldest entry will be deleted automatically.
When you have missed call(s) (incoming calls that you haven't answered) the display will show $\mathbf{X}$ Missed call(s) and the $\mathbf{5 C}$ will flash on all handsets registered to the base. Press $\mathrm{on}_{0}^{\text {Menv }}$ to see the callers details.

1. Press ${ }_{\text {an }}^{0}$. to open the Calls list. If there are no calls in the list, the display shows List empty.

- The most recent number (and name if stored in the phonebook) is displayed.

- If the call was answered, $\mathbf{C}^{+}$is displayed as you scroll to the entry. If the call was unanswered, $\mathbf{5} \mathbf{C}$ is displayed as you scroll to the entry.
- If the telephone number is longer than 16 digits, is displayed. Press $\begin{aligned} & \text { BUCK } \\ & \text { BUCK }\end{aligned}$ to see the remaining digits.
- Press ${ }_{\text {OkNV }}^{\text {Men }}$ to access the options to view, store the entry to your phonebook, delete the number, delete all numbers or block the number.

### 8.2.1 View the Calls list

1. Press 品 to open the Calls list.

2. Press ${ }_{o k}^{\text {MENU }}$, the display shows View.
3. Press ${ }_{o k}^{\text {MENU }}$ to view the call name and time and date of the call, press ${ }_{\mathrm{OK}}^{\text {MENU }}$ to switch between the name and number.

### 8.2.2 Dial a number in the Calls list

1. Press ${ }_{\text {vid }}^{\text {vid }}$ to open the Calls list.
2. Scroll ${ }_{\mathrm{col}}^{\mathrm{ct}}$ or or
3. Press nash to dial the displayed entry.

### 8.2.3 Store a Calls list number to the phonebook

If a phone number is stored in the calls list but is not already in the phonebook you can save the name and number.

1. Press ${ }_{c i o}^{\Delta}+$ to open the Calls list.

2. Press ${ }_{0 \times \infty}^{\text {MENU }}$, the display shows View.
3. Scroll ${ }_{\mathrm{g}}^{\mathrm{g}}$ to Save number and press $\mathrm{ok}_{\mathrm{ok}}^{\mathrm{m}}$.
4. The display shows Enter name.
5. Enter the name and press $\mathrm{OK}_{\mathrm{O}}^{\mathrm{MENU}}$. The number is displayed.
6. Edit the number if necessary, then press ${ }_{\mathrm{OK}}^{\mathrm{MENU}}$. The number is stored.

### 8.2.4 Delete an entry

1. Press $\underset{\substack{\mathrm{cil}_{0}+\\ \text { cid }}}{\text { do open the Calls list. }}$
2. Scroll ${ }_{\text {dit }}^{\text {cit }}$ or
3. Press ${ }_{o \mathrm{~K}}^{\mathrm{MENU}}$, the display shows View.

4. Press $\mathrm{OK}_{\mathrm{K}}^{\text {MENU }}$ to confirm or ${ }_{\text {BACK }}^{\text {MUTE }}$ to cancel.

### 8.2.5 Delete the entire Calls list

1. Press ${ }_{\text {vid }}^{v_{i+}+}$ to open the Calls list.
2. Press ${ }_{o k}^{\text {MENU }}$, the display shows View.
3. Scroll to Delete all and press $\begin{gathered}\text { MENU } \\ 0\end{gathered}$. The display shows Confirm?
4. Press $\mathrm{OK}_{\mathrm{OK}}^{\text {MENU }}$ to confirm or ${ }_{\text {BACK }}^{\text {MUTE }}$ to cancel.

### 8.2.6 Store a number to the blacklist

1. Press vilo to open the Calls list.

2. Press ${ }_{o k}^{\text {MENU }}$, the display shows View.
 press ${ }_{o k}^{\text {MENU }}$ the number is displayed, press ${ }_{\text {OK }}^{\text {MENU }}$ to confirm.

## 9. Using your Answering Machine

The phone can digitally record up to 12 minutes of messages. As well as recording incoming messages, it can record memos for other users.
The answering machine can be operated from:

- the base
- the handset
- remotely, from any other DTMF telephone, see page 35.

### 9.1 Switch the answering machine on / off

## Via the base

1. Press $\varrho_{\text {om }}$ on the base to turn the answering machine on or off. When the answering machine is on, the LED will be on.

## Via the handset

Scroll 易 to Voice answer and press ${ }_{o k}^{\text {menv }}$ 。
 confirm.

### 9.2 Listening to your messages

## Using the base:

1. If there are new messages, press and only they will be played. Press and hold to play all messages.
2. If there are no new messages, press all messages will be played.

## During playback:

Press to stop message playback.
Press $\underset{1 / 8 \mathrm{sk}}{1 /}$ to play the next message.
Press $\stackrel{\text { SkIP }}{ }$ to play the previous message.
Press (ELLETE to delete the current message.

## Note

When in standby press and hold (שELETE for 2 seconds to delete all old messages.

## Using the handset:

1. If there is a new message press ${ }_{\mathrm{O}}^{\mathrm{M}} \mathrm{ENU}$ and the new message will be played.

2. Play is displayed, press ${ }_{0}^{\text {Menvo }}$.
3. The display shows the number of the message being played and the date and time the message was left will toggle on the screen.
4. During playback press ${ }_{\text {Menv }}^{\text {OKN }}$ to display a list of options.

- Repeat press ${ }_{\mathrm{OK}}^{\mathrm{MENU}}$ to repeat current message.
- Next press ${ }_{\mathbf{O K}}^{\text {menu }}$ to play next message.
- Previous press ${ }_{\mathrm{OK}}^{\mathrm{MENU}}$ to play previous message.
- Delete press ${ }_{\mathrm{OK}}^{\mathrm{MENU}}$ to delete the current message.

7. Press © to stop playback and return to standby.

### 9.3 Adjust the speaker volume

You can adjust the base loudspeaker volume from low to high. Press $\boldsymbol{\psi}$ to increase the volume, or - to decrease the volume.

### 9.4 Delete all messages

3. Display shows Confirm?, press $\underset{\substack{\mathrm{M}}}{\mathrm{MENU}}$.

### 9.5 Announcement

This is the message your callers hear on the answer machine. There are two pre-recorded outgoing messages, or you can record your own.

### 9.5.1 Record also

The pre-set Record also announcement, that allows your caller to leave a message, is 'Hello, your call cannot be taken at this moment, so please leave your message after the tone'.

### 9.5.2 Answer only

The caller can listen to your announcement but cannot leave a message. The pre-recorded message is 'Hello, your call cannot be taken at this moment, and you cannot leave a message, so please call later.'

### 9.5.3 Record, play or delete your own announcement

1. Press ${ }_{o k}^{\text {MENU }}$, scroll ${ }^{\square}$ to Answ. Machine and press MENU

If you select Play the current announcement will play back.
If you select Record once you hear the beep speak your announcement into the handset, to end recording press ${ }_{o k}^{\text {MENU }}$. The announcement will play back. If you selected Use default the display shows Confirm?, press ${ }_{\mathbf{O K}}^{\mathrm{MENU}}$ to confirm.

### 9.5.4 Select the announcement

## Note

If the answering machine is turned off and then turned on via the base unit the settings will be the same as when it was last switched on.

### 9.6 Ring delay

Select the duration of rings before your answer machine picks up the call. Choose from 3-8 Rings or Toll Saver.

- When set to Toll Saver, if you have new messages your phone answers after 3 Rings.
- If there are no new messages it will answer after 5 Rings. So you have the option to hang up, saving the time and cost of a call.
- If the memory is full, it will automatically revert to Answer Only mode.

 setting.

### 9.7 Remote access

You can operate your answering machine from any DTMF phone by calling your product and entering a 4 digit security PIN code.

1. Dial your telephone number. When you hear your outgoing message, press \#.
2. Enter your 4-digit PIN (default setting OOOO) you will hear a confirmation beep. Use the keypad to operate the answering machine.

| Press 1 for previous the message | Press 7 to turn On the answering <br> machine |
| :--- | :--- |
| Press 2 to play messages | Press 8 to stop message playback |
| Press 3 to play the next message | Press 9 to turn Off the answering <br> machine |
| Press 6 to delete the current message |  |

### 9.8 Remote access on/off and change remote PIN

4. Press ${ }_{\mathrm{Ok}}^{\mathrm{MENU}}$ to confirm.

If you choose Change PIN enter the old PIN and press ${ }_{o k}^{\text {MENU }}$.
5. Enter the new PIN and press ${ }_{\text {ok }}^{\text {MENU }}$.
6. Re-enter the new PIN.
7. Press ${ }_{\mathrm{OK}}^{\mathrm{MENU}}$ to confirm.

### 9.9 Voice language

2. Scroll ${ }_{v}^{0}$ to Voice language and press ${ }_{o k}^{\text {MeNU }}$.

### 9.10 Memory full

The memory is full if there is less than 15 seconds of recording time left or if the maximum total of 59 messages has been reached.
When the memory becomes full:

- $\boldsymbol{m}$ flashes quickly on the handset display.
- The machine will automatically switch to Answer Only mode.

If the memory becomes full while a caller is leaving a message, they will hear a beep and the call is ended.

## 10. Help

## The 畐 is not scrolling during charge

- Bad battery contact - move the handset slightly.
- Dirty contact - Clean the battery contact with a cloth moistened with alcohol.
- Battery is full - no need to charge.

## No dialling tone

- No power - check the connections. Reset the phone: unplug and plug back in the mains.
- Batteries are empty - charge the batteries for at least 16 hours.
- You are too far from the base - move closer to the base.
- Wrong line cable - use the line cable provided.
- Line adaptor (when needed) is not connected to the line cord - connect the line adaptor (when needed) to the line cord.

## Poor audio quality

- The base is too close to electrical appliances, reinforced concrete walls or metal doorframes - move the base at least one meter away from any electrical appliances.

## The ill is blinking or has disappeared

- Handset is not registered to the base - register the handset to the base.
- You are too far from the base - move closer to the base.

## No ring tone

- The ring tone is deactivated.
- Increase the volume.
- Make sure the Call Block mode is switched to off.

## Caller ID service does not work

- Check your subscription with your network operator.

## A phonebook entry cannot be stored

- The phonebook is full. Delete an entry to free memory.

## No display

- Try recharging the batteries.
- Try disconnecting and connecting the base power supply.
- If LED is not lit up, then try disconnecting and connecting the base power supply.

## Unable to register another handset

- Maximum number of 4 handsets has been reached.
- The display shows Searching. You must unregister a handset in order to register a new one.

## Noise interference on your radio or television

- Your base or charger cradle may be too close. Move it as far away as possible.

## Answer machine does not record messages

- Switch the answer machine on.
- The memory may be full. If so, you will need to delete some messages.
- Answer mode may be set to Answer only. Change the mode to Record also.

## Cannot access messages remotely

- Remote access may be switched off.
- If wrong PIN is entered a beep is played. You can enter the PIN again.

## Cannot record announcement

- The memory may be full. If so, you will need to delete some messages.

## Answer machine stops automatically

- The memory may be full. If so, you will need to delete some messages.
- The maximum message length is 3 minutes.

## 11. Technical Specifications

## 12. General information

## Cleaning

- Clean the handset and base (or charger cradle) with a damp (not wet) cloth, or an anti-static wipe.
- Never use household polish as this will damage the product. Never use a dry cloth as this may cause static shock.

## Environmental

- Do not expose to direct sunlight.
- The handset may become warm when the batteries are being charged or during prolonged periods of use. This is normal. However, we recommend that to avoid damage, do not place the product on antique / veneered wood.
- Do not place your product on carpets or other surfaces which generate fibres, or place it in locations preventing the free flow of air over its surfaces.
- Do not submerge any part of your product in water and do not use it in damp or humid conditions, such as bathrooms.
- Do not expose your product to fire, explosives or other hazardous conditions.
- There is a slight chance that your phone could be damaged by an electrical storm. We recommend that you unplug the power and telephone line cord during an electrical storm.

## Product disposal instructions

## Product disposal instructions for residential users

When you have no further use for it, please remove any batteries and dispose of them and the product according to your local authority's recycling processes. For more information, please contact your local authority or the retailer where the product
 was purchased.

## Product disposal instructions for business users

Business users should contact their suppliers and check the terms and conditions of the purchase contract and ensure that this product is not mixed with other commercial waste for disposal.

## Consumer Products and Accessories Warranty

Thank you for purchasing this Motorola branded product manufactured under license by Meizhou Guo Wei Electronics Co. LTD., AD1 section, The economy exploitation area, Meizhou, Guangdong, P.R.China . ("MZGW")

## What Does this Warranty Cover?

Subject to the exclusions contained below, MZGW warrants that this Motorola branded product ("Product") or certified accessory ("Accessory") sold for use with this product that it manufactured to be free from defects in materials and workmanship under normal consumer usage for the period outlined below. This Limited Warranty is your exclusive warranty and is not transferable.

## Who is covered?

This warranty extends only to the first consumer purchaser, and is not transferable.

## What will MZGW do?

MZGW or its authorized distributor at its option and within a commercially reasonable time, will at no charge repair or replace any Products or Accessories that do not conform to this limited warranty. We may use functionally equivalent reconditioned / refurbished / pre-owned or new Products, Accessories or parts.

## What Other Limitations Are There?

ANY IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY, OTHERWISE THE REPAIR OR REPLACEMENT PROVIDED UNDER THIS EXPRESS LIMITED WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER, AND IS PROVIDED IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OF IMPLIED. IN NO EVENT SHALL MOTOROLA OR MZGW BE LIABLE, WHETHER IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT OR ACCESSORY, OR FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, OR LOSS OF REVENUE OR PROFITS, LOSS OF BUSINESS, LOSS OF INFORMATION OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE ABILITY OR INABILITY TO USE THE PRODUCTS OR ACCESSORIES TO THE FULL EXTENT THESE DAMAGES MAY BE DISCLAIMED BY LAW.
Some jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or limitation on the length of an implied warranty, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from one jurisdiction to another.

| Products Covered | Length of Coverage |
| :--- | :--- |
| Consumer Products | One (1) year from the date of the <br> products original purchase by the <br> first consumer purchaser of the <br> product. |
| Consumer Accessories (battery, <br> power supply(s) and line cords) | Ninety (90) days from the date of <br> the accessories original purchase by <br> the first consumer purchaser of the <br> product. |
| Consumer Products and Accessories <br> that are Repaired or Replaced | The balance of the original warranty <br> or for ninety (90) days from the date <br> returned to the consumer, whichever <br> is longer. |

## Exclusions

Normal Wear and Tear. Periodic maintenance, repair and replacement of parts due to normal wear and tear are excluded from coverage.
Batteries. Only batteries whose fully charged capacity falls below 80\% of their rated capacity and batteries that leak are covered by this limited warranty.

#### Abstract

Abuse \& Misuse. Defects or damage that result from: (a) improper operation, storage, misuse or abuse, accident or neglect, such as physical damage (cracks, scratches, etc.) to the surface of the product resulting from misuse; (b) contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or the like, extreme heat, or food; (c) use of the Products or Accessories for commercial purposes or subjecting the Product or Accessory to abnormal usage or conditions; or (d) other acts which are not the fault of Motorola or MZGW are excluded from coverage. Use of Non-Motorola branded Products and Accessories. Defects or damage that result from the use of Non-Motorola branded or certified Products or Accessories or other peripheral equipment are excluded from coverage.

Unauthorized Service or Modification. Defects or damages resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way by someone other than Motorola, MZGW or its authorized service centers, are excluded from coverage.

#### Abstract

Altered Products. Products or Accessories with (a) serial numbers or date tags that have been removed, altered or obliterated; (b) broken seals or that show evidence of tampering; (c) mismatched board serial numbers; or (d) nonconforming or non-Motorola branded housings, or parts, are excluded from coverage.

Communication Services. Defects, damages, or the failure of Products or Accessories due to any communication service or signal you may subscribe to or use with the Products or Accessories is excluded from coverage.

## How to Obtain Warranty Service or Other Information?

To obtain service or information, please call: 1-833-468-1468.
You will receive instructions on how to ship the Products or Accessories at your expense and risk, to a MZGW Authorized Repair Center.
To obtain service, you must include: (a) the Product or Accessory; (b) the original proof of purchase (receipt) which includes the date, place and seller of the Product; (c) if a warranty card was included in your box, a completed warranty card showing the serial number of the Product; (d) a written description of the problem; and, most Importantly; (e) your address and telephone number.

## FCC, ACTA and ISEDC regulations

## FCC Part 15

This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: •

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Privacy of communications may not be ensured when using this telephone.
To ensure safety of users, the FCC has established criteria for the amount of radio frequency energy that can be safely absorbed by a user or bystander according to the intended usage of the product. This product has been tested and found to comply with the FCC criteria. Both the Handset may be safely held against the ear of the user. The telephone base shall be installed and used such that parts of the user's body other than the hands are maintained at a distance of approximately 20 cm ( 8 inches) or more.
This Class B digital apparatus complies with Canadian ICES-OO3.

## FCC Part 68 and ACTA

This equipment complies with Part 68 of the FCC rules and with technical requirements adopted by the Administrative Council for Terminal Attachments (ACTA). This Product Complies With 47CFR PART 68.
The plug and jack used to connect this equipment to premises wiring and the telephone network must comply with applicable Part 68 rules and technical requirements adopted by ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. An RJ11 jack should normally be used for connecting to a single line and an RJ14 jack for two lines. See Installation Instructions in the User's Guide.
The Ringer Equivalence Number (REN) is used to determine how many devices you may connect to your telephone line and still have them ring when you are called. The REN for this product is encoded as the 6th and 7th characters following the US: in the product identifier (e.g., if \#\# is 03, the REN is 0.3). In most, but not all areas, the sum of all RENs should be five (5.0) or less. For more information, please contact your local telephone company.
This equipment may not be used with Party Lines. If you have specially wired alarm dialing equipment connected to your telephone line, ensure the connection of this equipment does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.

If this equipment is malfunctioning, it must be unplugged from the modular jack until the problem has been corrected. Repairs to this telephone equipment can only be made by the manufacturer or its authorized agents. For repair procedures, follow the instructions outlined under the Limited Warranty.
If this equipment is causing harm to the telephone network, the telephone company may temporarily discontinue your telephone service. The telephone company is required to notify you before interrupting service. If advance notice is not practical, you will be notified as soon as possible. You will be given the opportunity to correct the problem and the telephone company is required to inform you of your right to file a complaint with the FCC. Your telephone company may make changes in its facilities, equipment, operation, or procedures that could affect the proper functioning of this product. The telephone company is required to notify you if such changes are planned.
If this product is equipped with a corded or cordless handset, it is hearing aid compatible. If this product has memory dialing locations, you may choose to store emergency telephone numbers (e.g., police, fire, medical) in these locations. If you do store or test emergency numbers, please:

- Remain on the line and briefly explain the reason for the call before hanging up.
- Perform such activities in off-peak hours, such as early morning or late evening.

## FCC Exposure to Radio Frequency (RF) Signals

## For Handset

This is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on the safety standards previously set by both U.S. and international standards bodies. These standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. This device and its antenna must not be collocated or operating in conjunction with any other antenna or transmitter. This product has been shown to be capable of compliance for localized specific absorption rate (SAR) for uncontrolled environment/general population exposure limits specified in ANSI/IEEE Std. C95.1-1992 and had been tested in accordance with the measurement procedures specified in FCC/ OET Bulletin 65 Supplement C (2001) and IEEE 1528.

## For Base

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## ISEDC Warning

This device complies with Innovation, Science, and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.
The device is compliance with RF exposure guidelines, users can obtain Canadian information on RF exposure and compliance.

## ISEDC Specific Absorption Rate (SAR) information

## For Handset

SAR tests are conducted using standard operating positions accepted by the ISEDC with device transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. Before a new model device is an available for sale to the public, it must be tested and certified to the ISEDC that it does not exceed the exposure limit established by the ISEDC, tests for each device are performed in positions and locations as required by the ISEDC. For body worn operation, this model device has been tested and meets the ISEDC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal.

## For Base

This equipment complies with ISEDC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator\& your body.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

## CS-03:

This product meets the applicable ISEDC technical specifications.
The REN is an indication of the maximum number of terminals allowed to be connected to a telephone interface. The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of the Ringer Equivalence Numbers of all the devices does not exceed five.

## REN: 0.1
